WE ENGINEER SOLUTIONS TO IMPROVE COMMUNITIES.

It's our passion and our purpose.

Services **Markets**

We offer comprehensive design solutions for infrastructure projects, and we specialize in those involving multiple services and disciplines. What we do improves communities, which is why we pay meticulous attention to every detail of your project. From start to finish.

Olsson

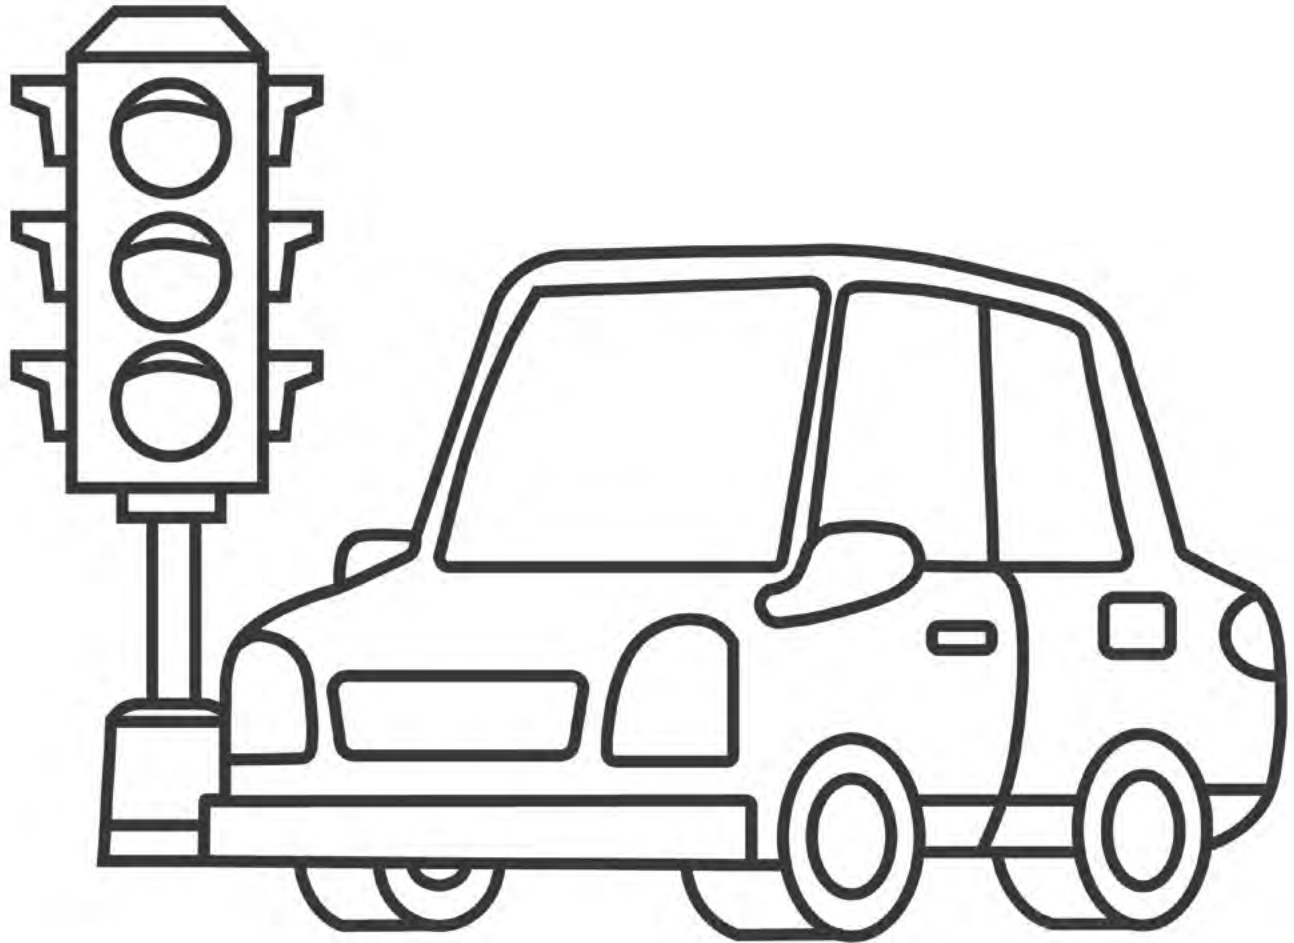

No water, no life. We protect this essential resource in everything we do.

At Olsson, our approach to water planning and engineering solves a wide range of short- and long-term challenges communities face every day. These challenges range from providing a sustainable water supply in arid, drought-prone regions to designing major flood control projects across the country. And everything in between.

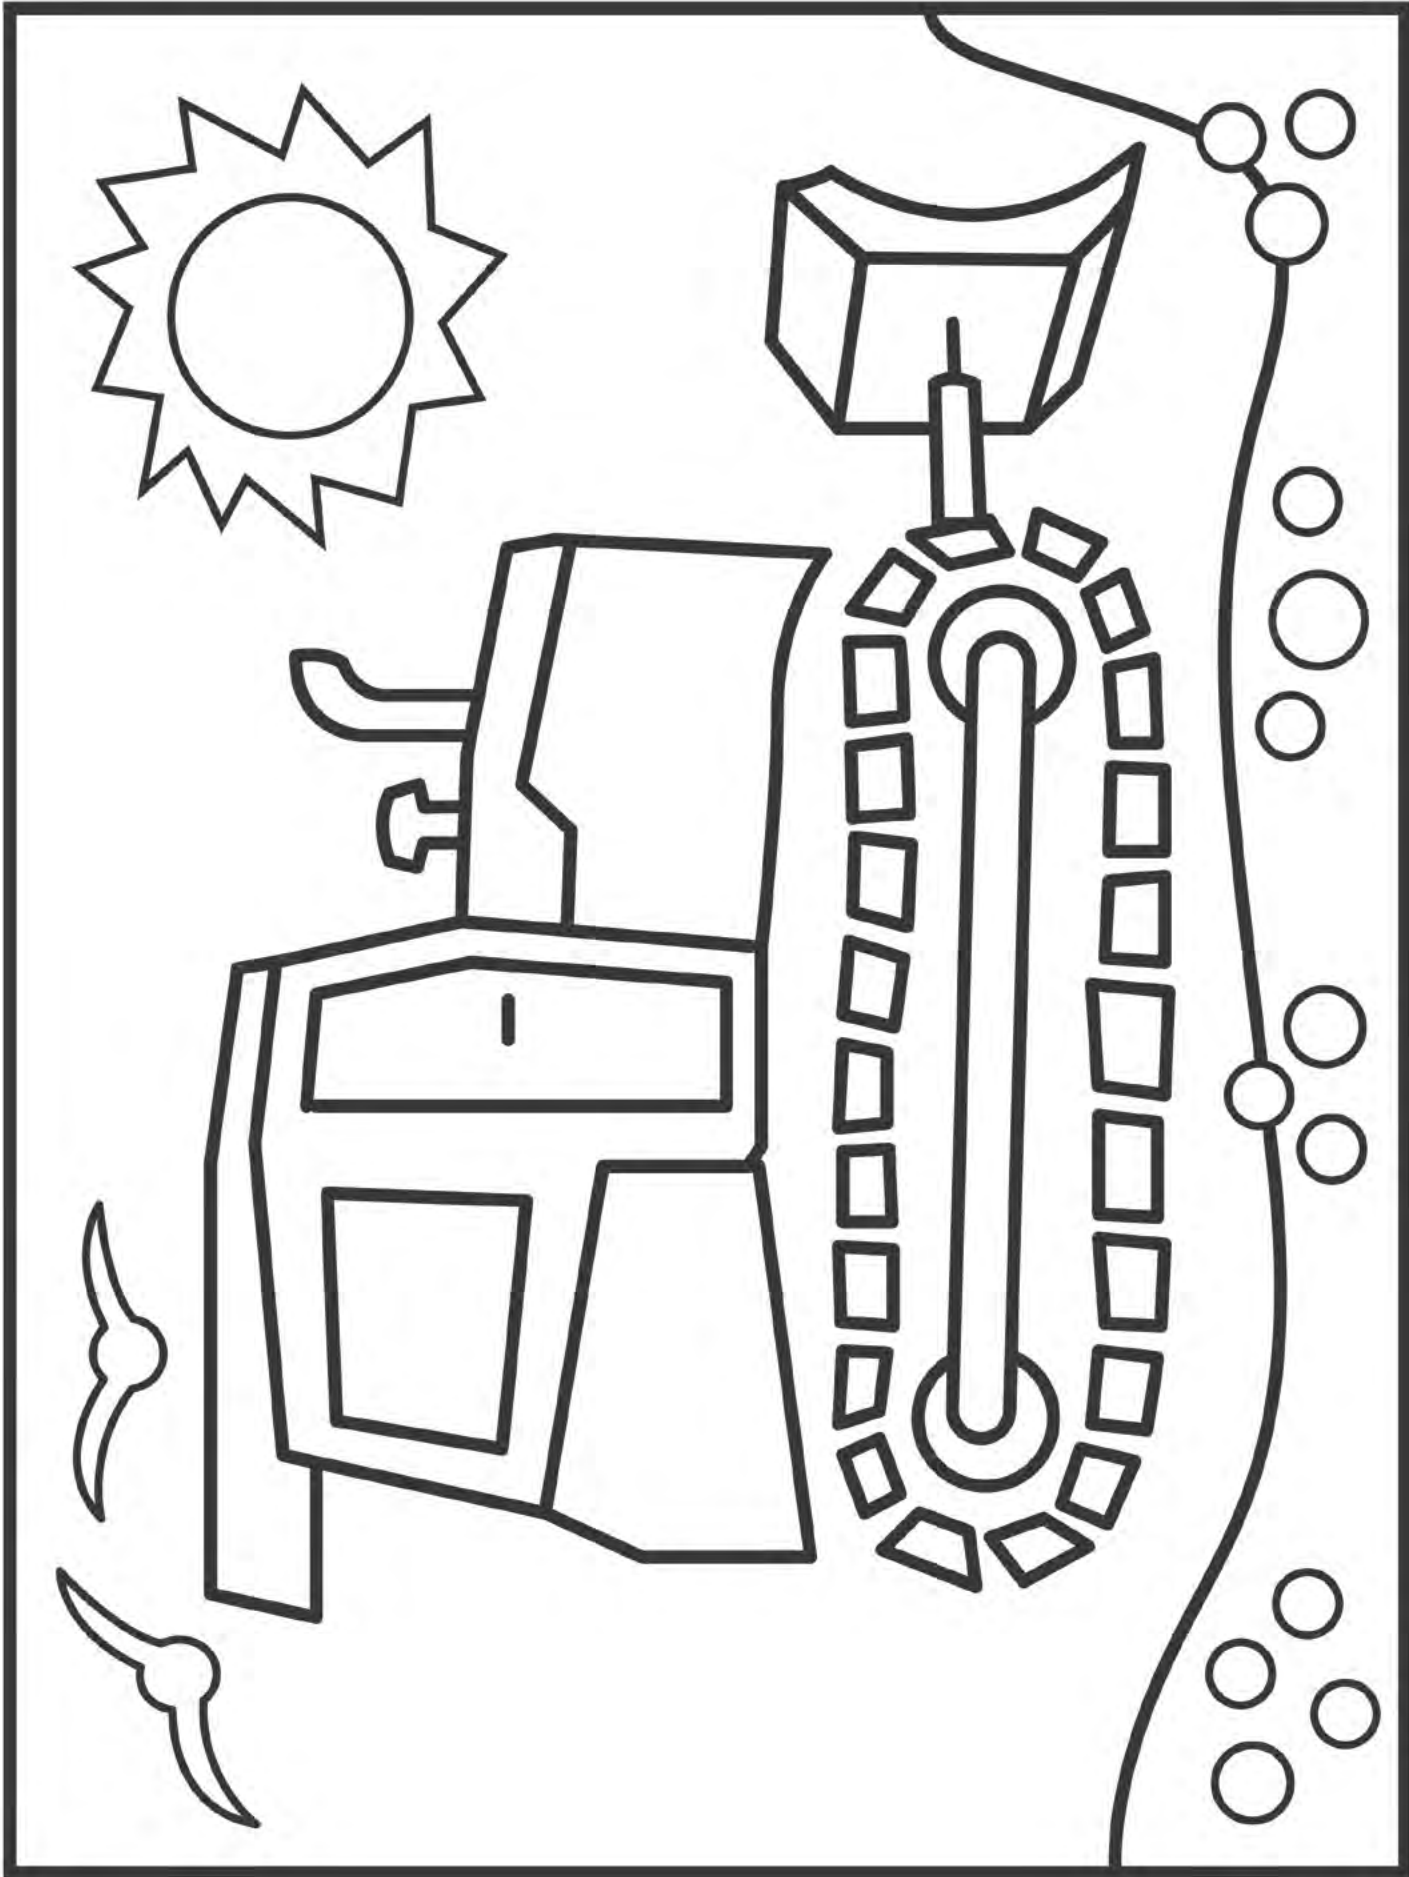

Engineering on the ground helps others take to the sky.

We bring expertise to airport planning, design, and construction.

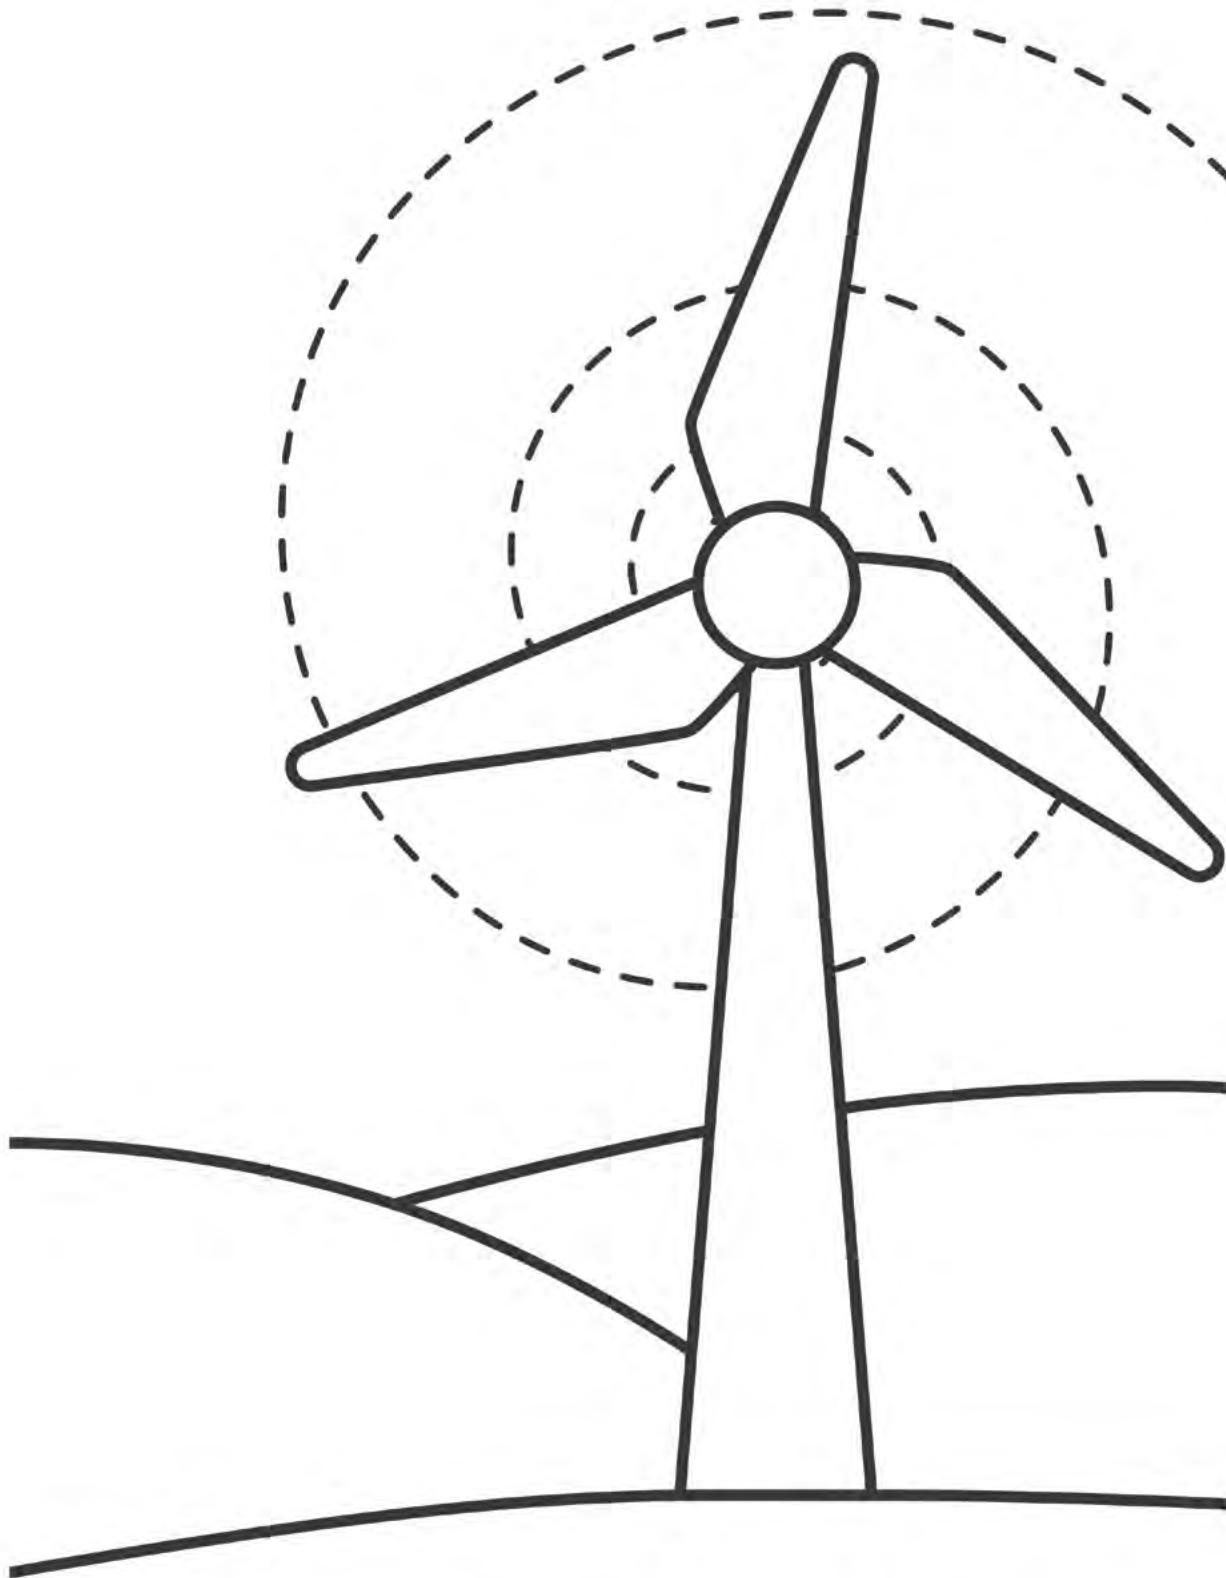

Whether it's a daily commute or a leisurely drive, we want you to enjoy the ride.

At Olsson, we create innovative solutions to improve traffic flow and drivers' dispositions on roadways nationwide. We design safe and efficient roadways, and we help communities realize long-term goals.

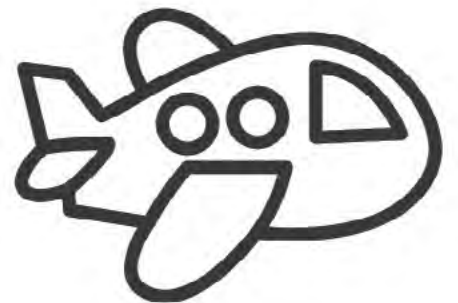

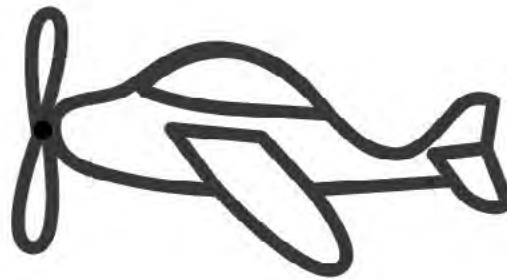

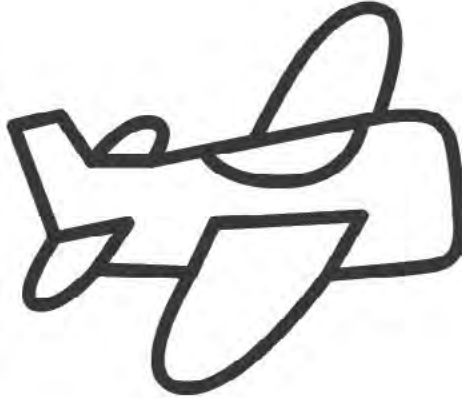

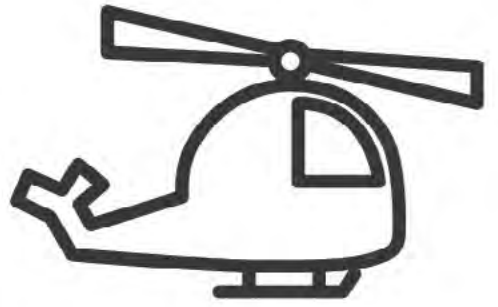

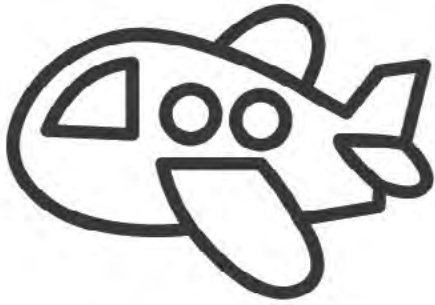

**We develop innovative solutions that balance the needs of
our clients and the benefits to the environment.**

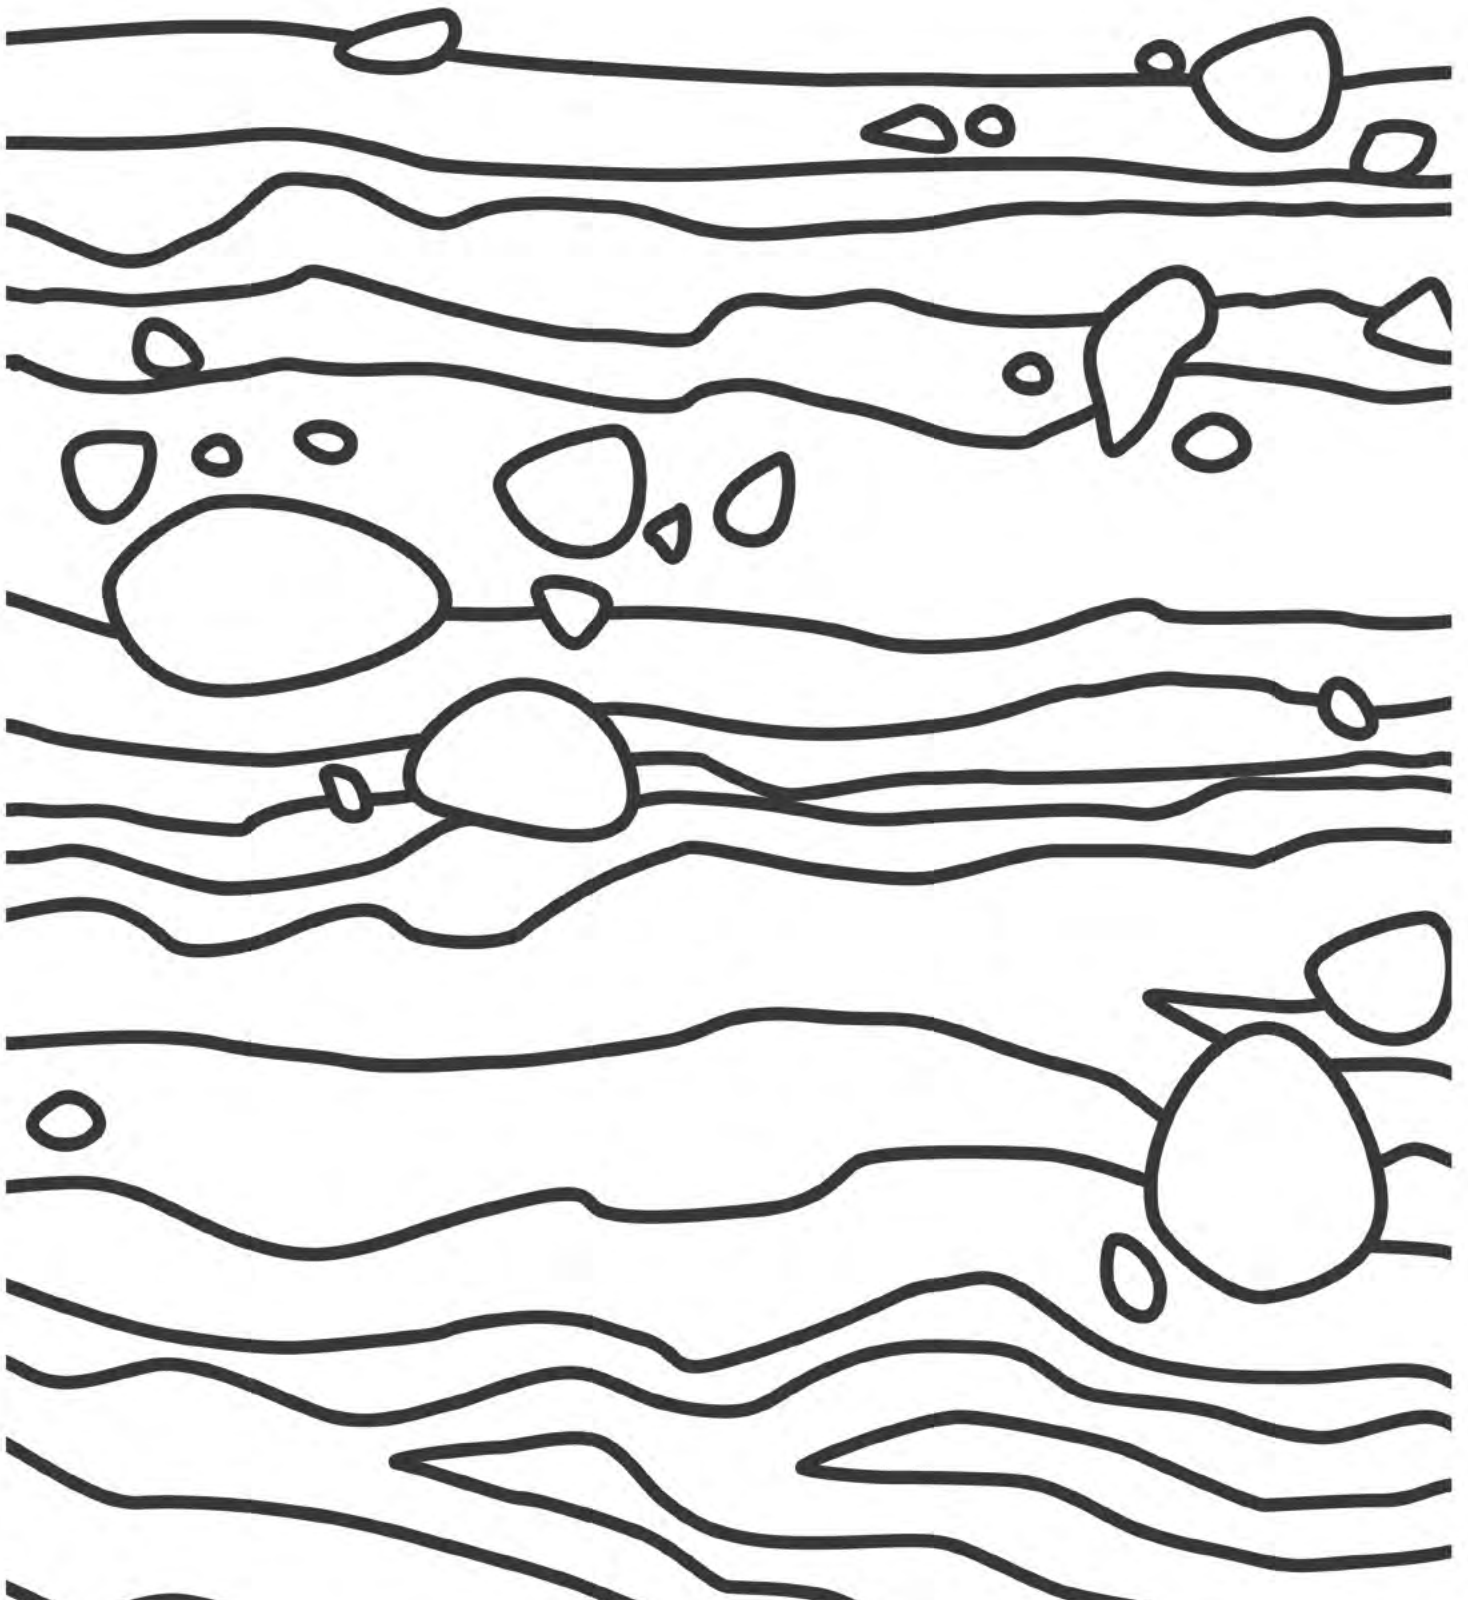

We design and engineer energy solutions to improve communities.

Powerful indeed.

As the world's population grows, energy demands increase.

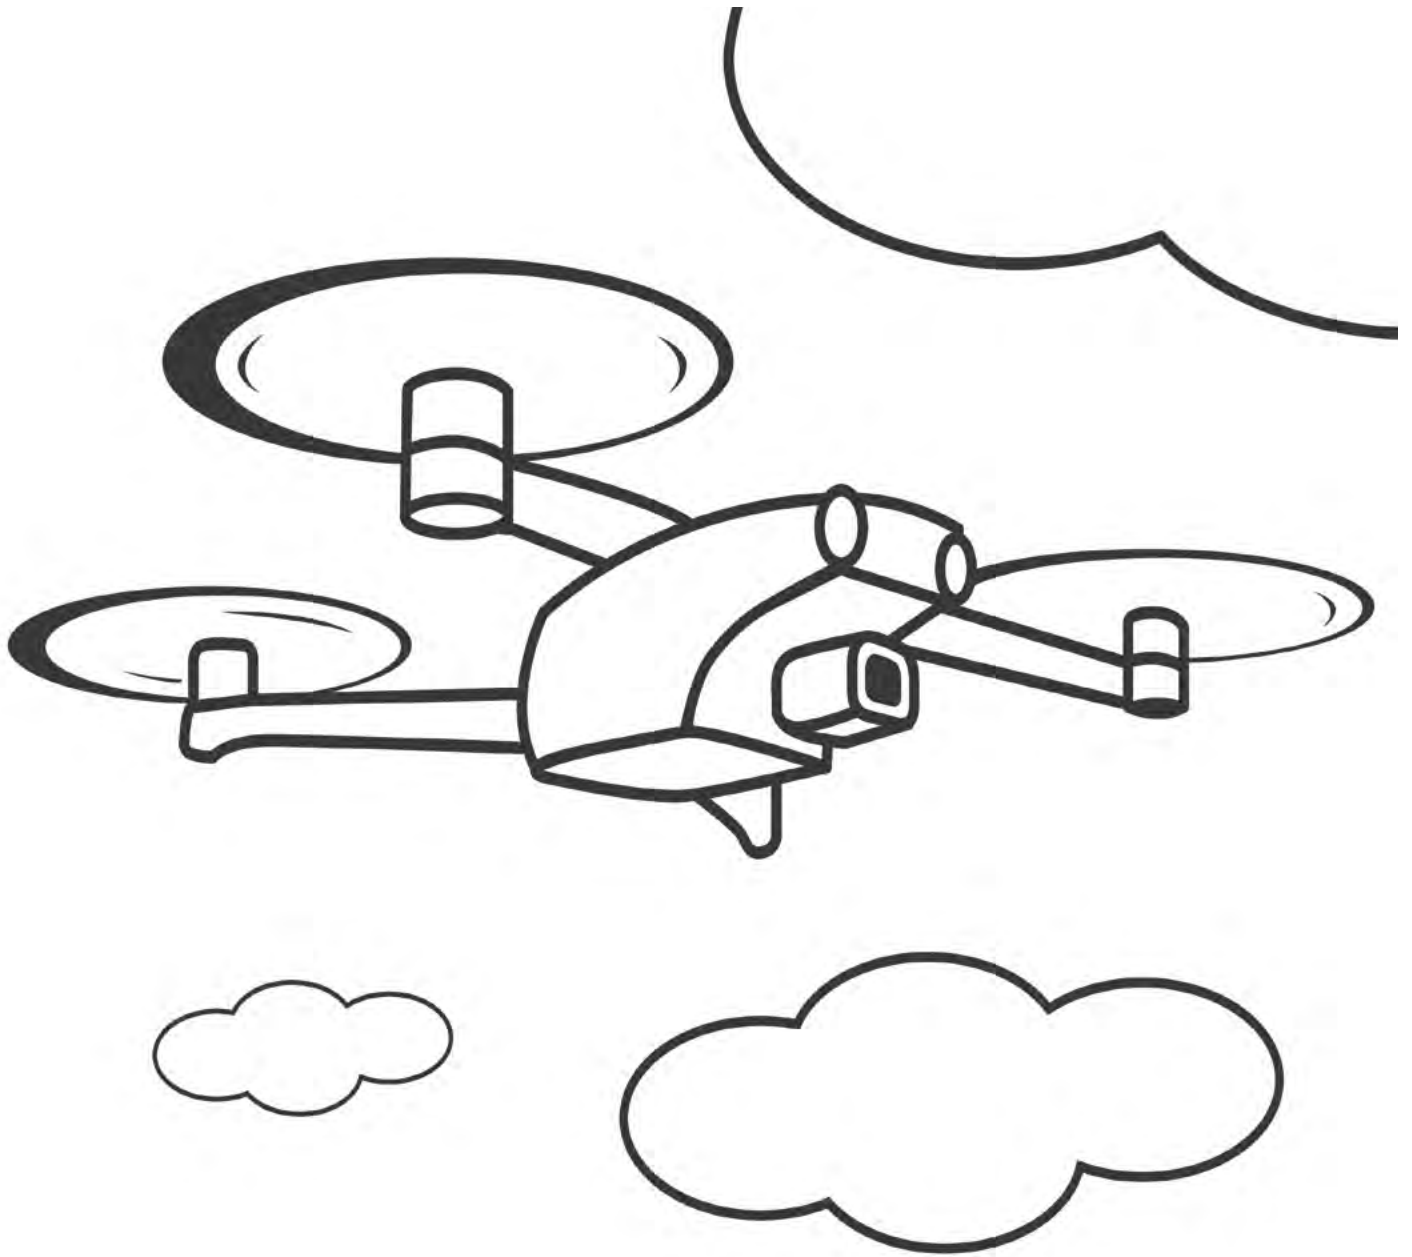

GEOTECHNICAL | It's what lies beneath that tells the whole story.

So, we dig right in, exploring the subsurface soils, bedrock, and groundwater conditions on the project site to determine the best practices for site development for your proposed project.

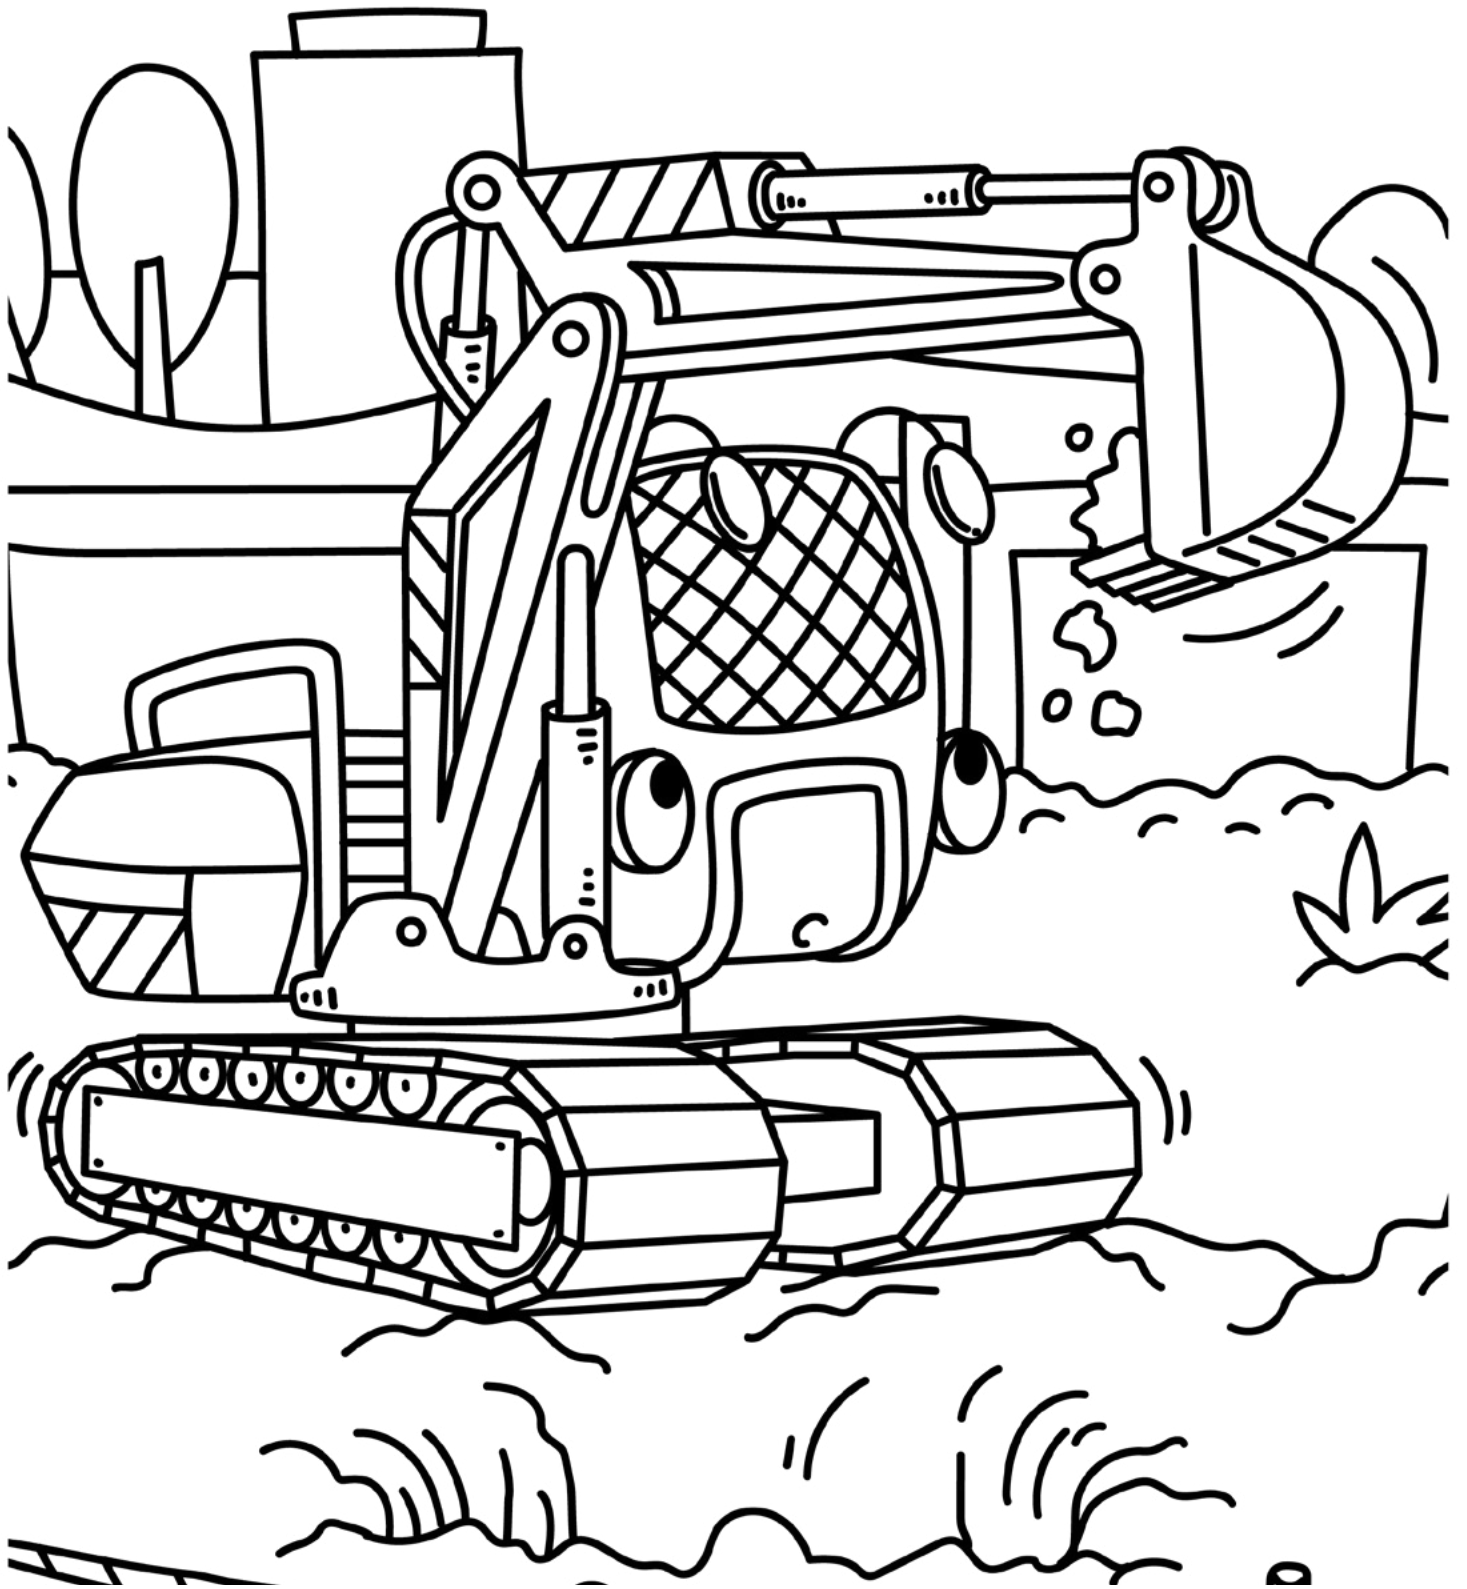

We develop innovative solutions that balance the needs of our clients and the benefits to the environment.

Our environmental engineering team is made up of experts in biology, ecology, geology, hydrogeology, meteorology, and natural resources who resolve past environmental conflicts and prevent future problems from taking place.

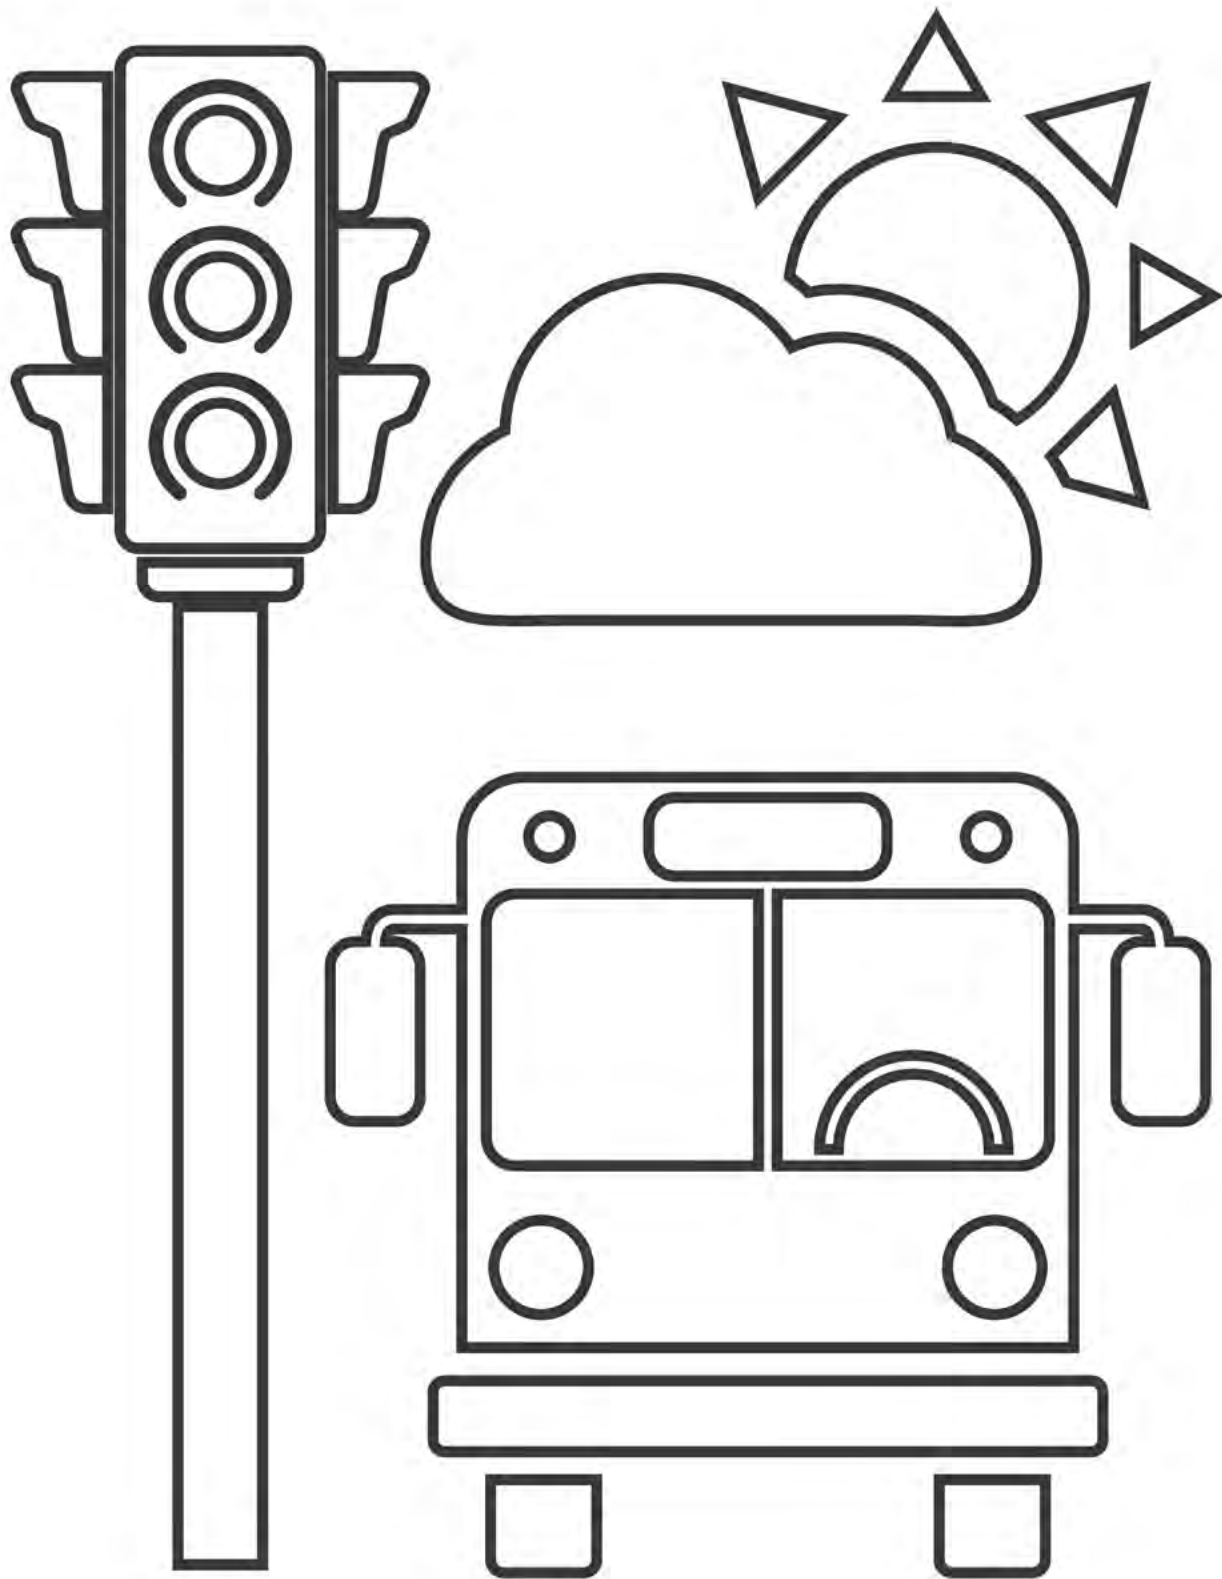

Drone Surveying

From simple boundary surveys to more complex ones—think utilities, roadways, renewable energy projects, and large commercial and residential developments—we’ve got it covered.

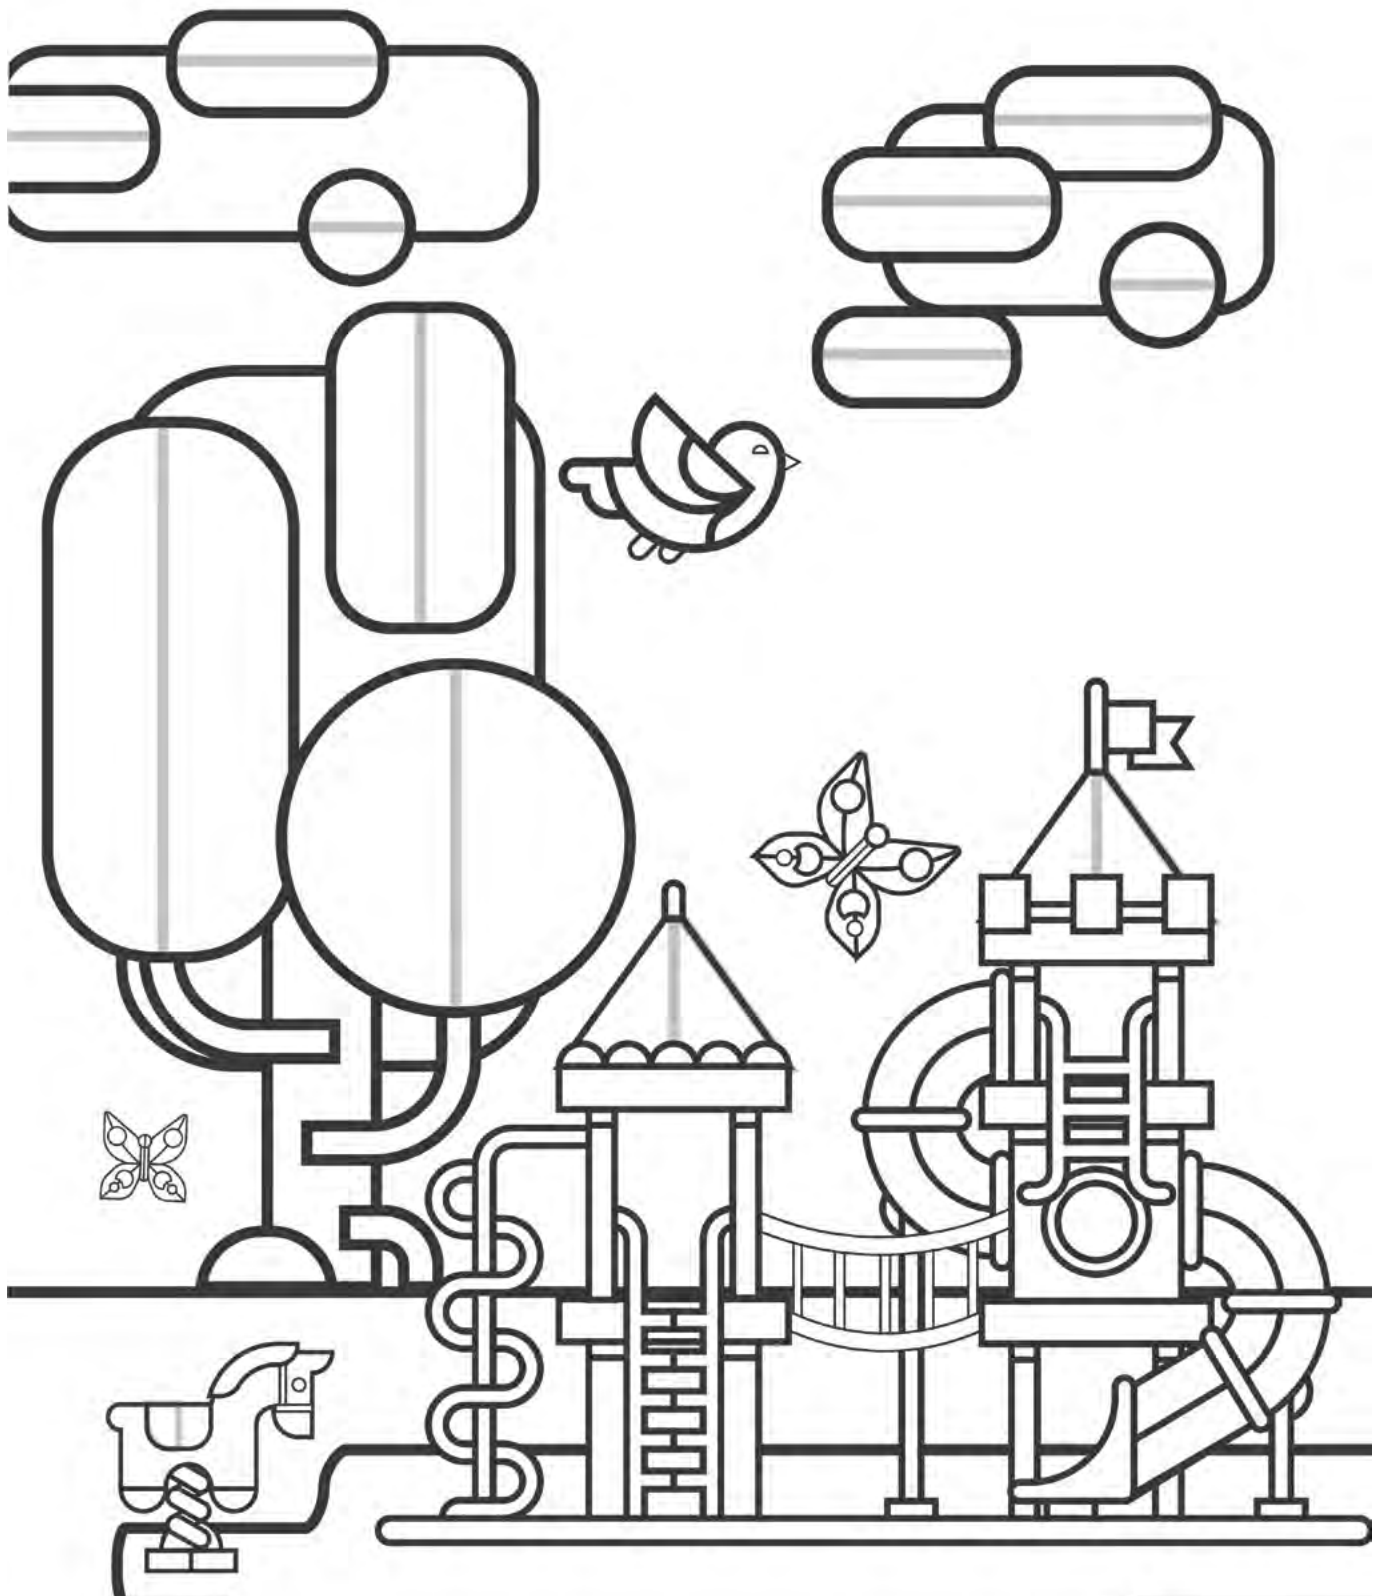

Construction Management

At Olsson, we provide the highest level of construction management, administration, and observation services for your project.

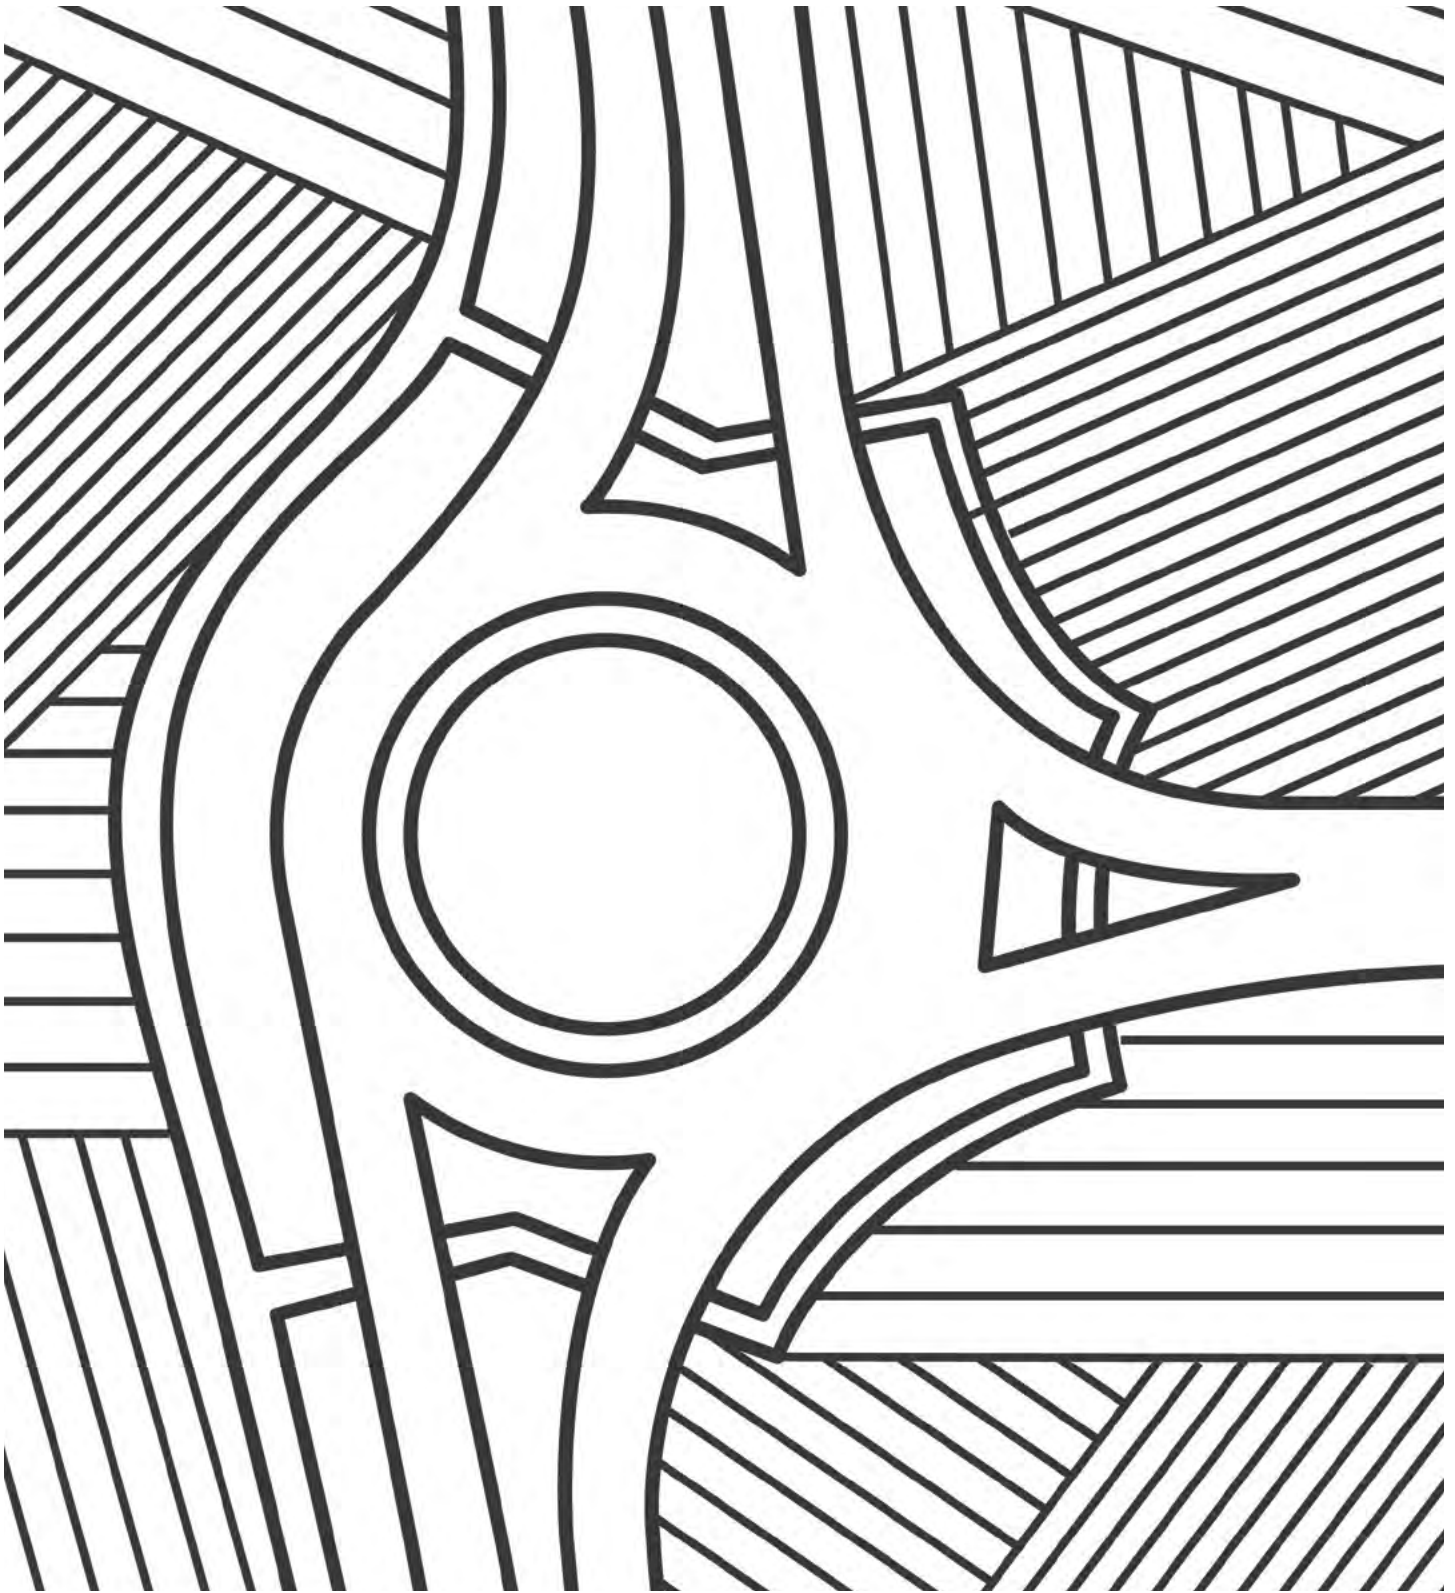

The art of moving people.

We've designed transit lanes, bus stops, and signal priority systems, implemented bus rapid routes, and completed operations analyses that improve service. We help keep people moving effectively and efficiently.

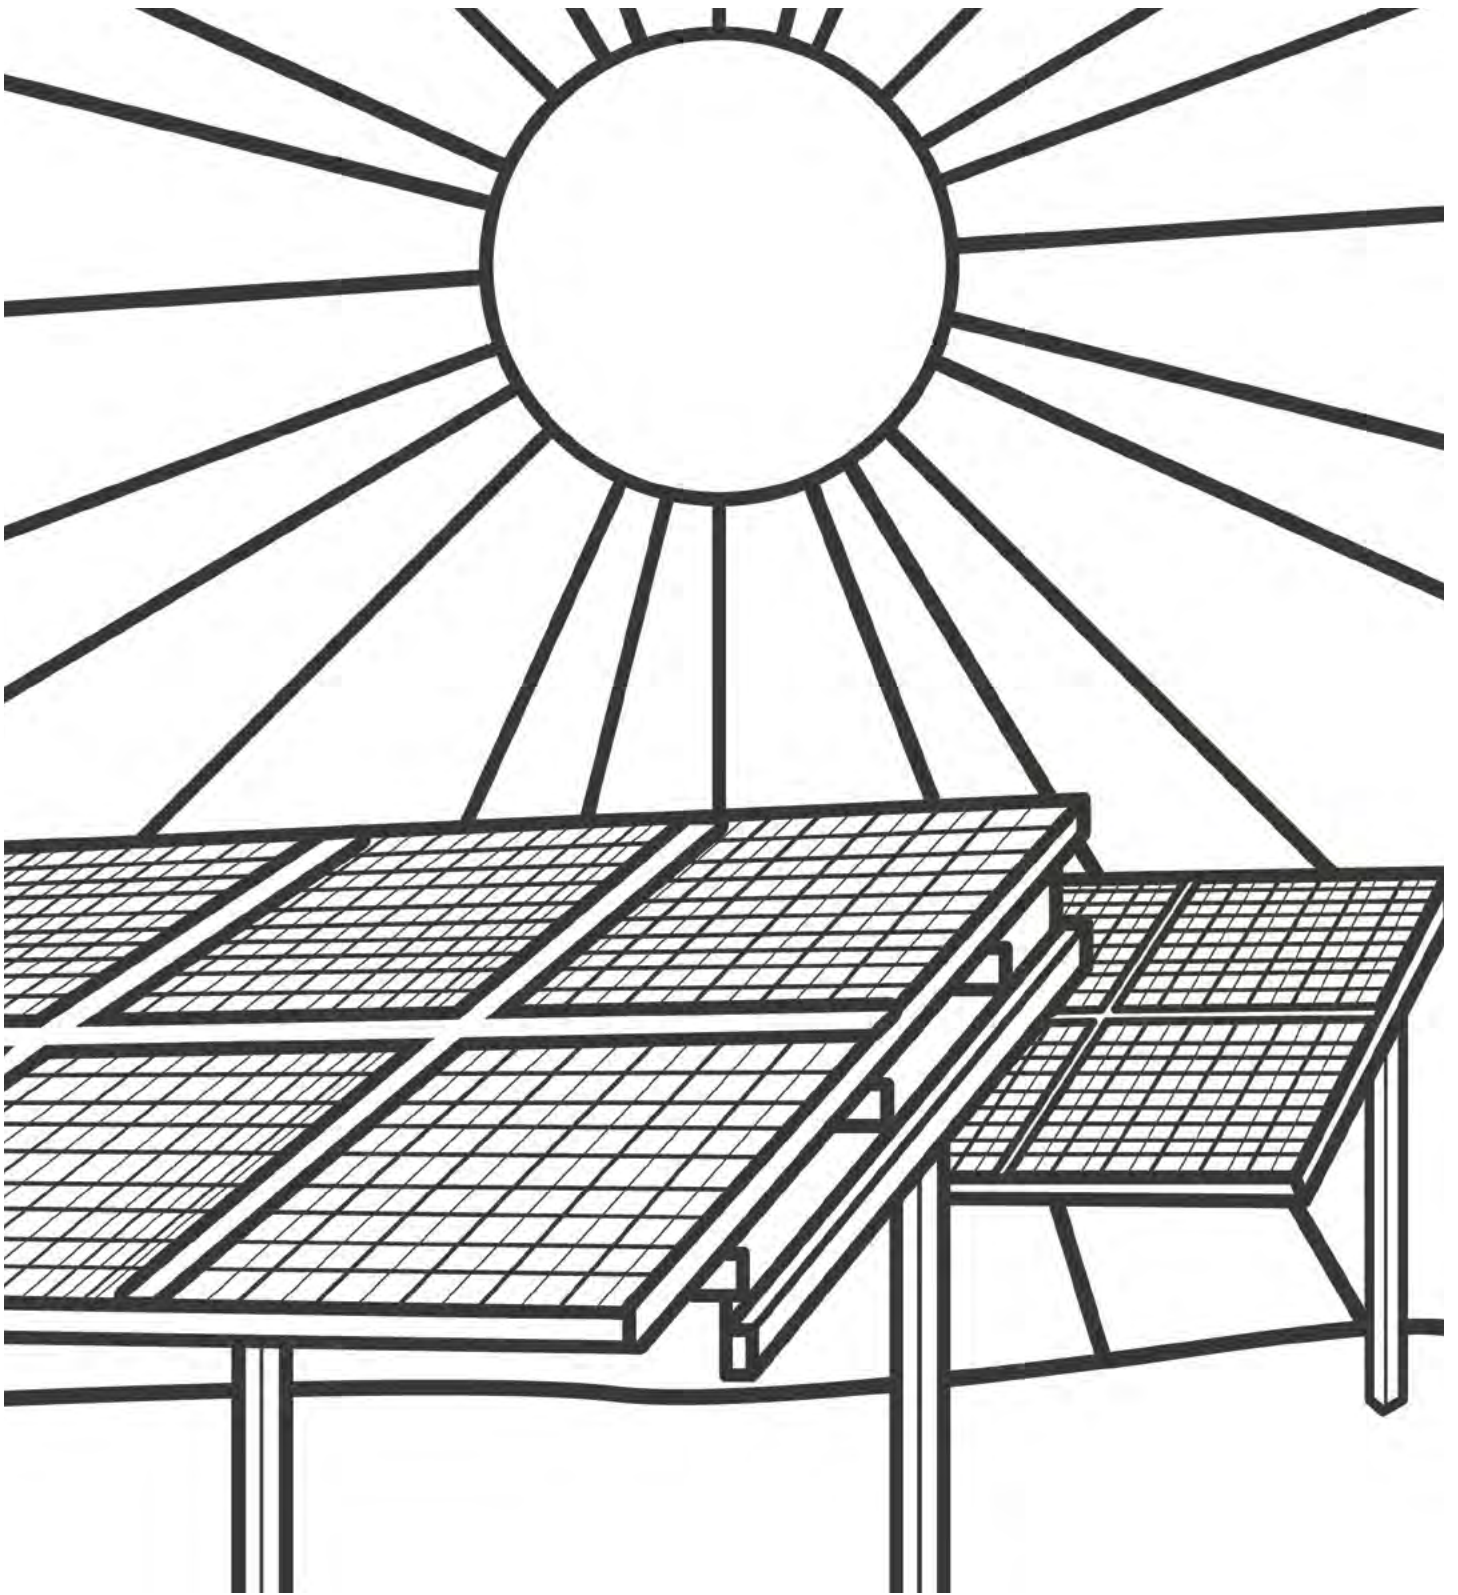

Play ball or just play.

Ochsner Hare & Hare, the Olsson Studio, is an industry leader in sports and recreational development and design. Our highly diverse portfolio also includes comprehensive planning and design for parks and trails, recreation areas and open spaces, and playgrounds.

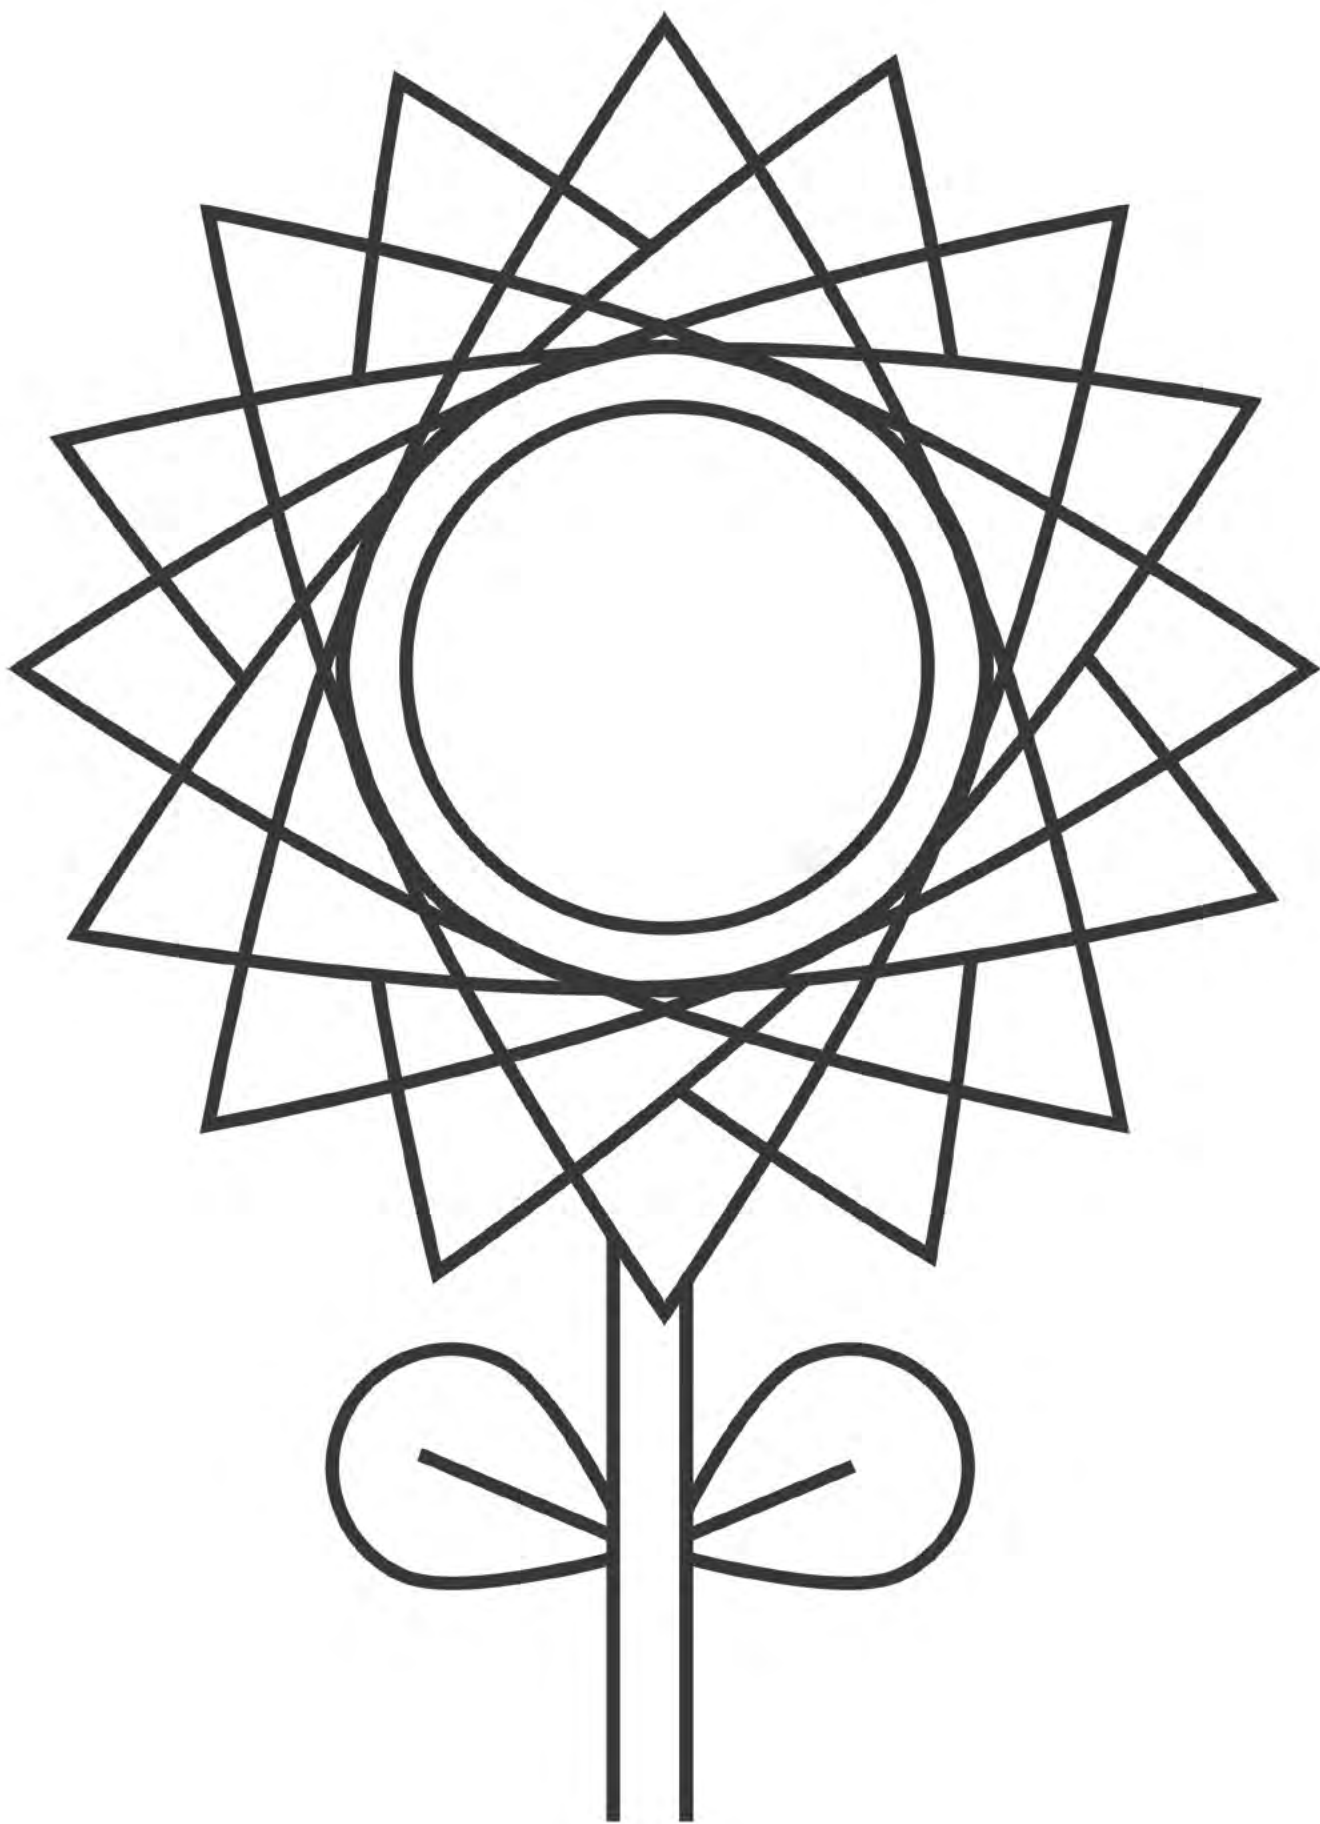

Whether it's a daily commute or a leisurely drive, we want you to enjoy the ride.

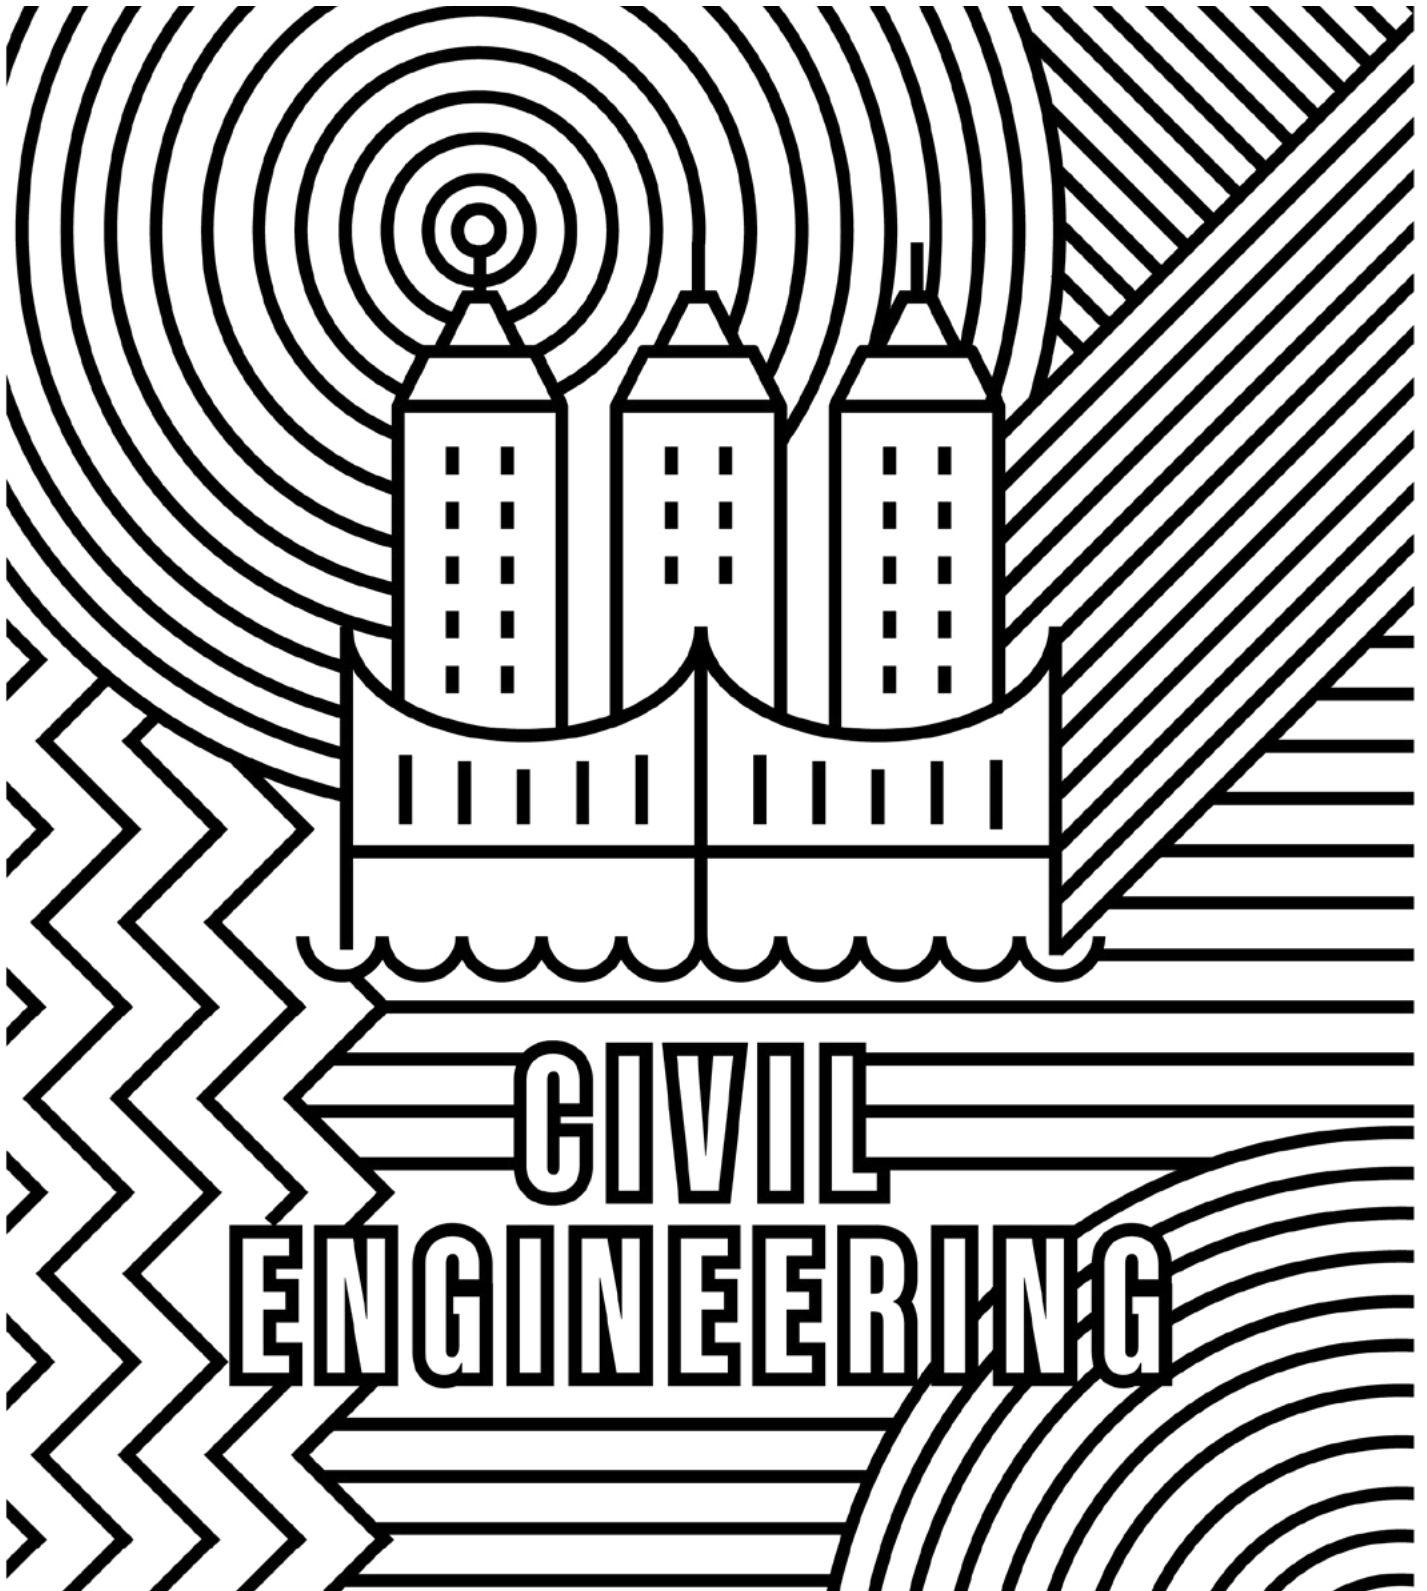

At Olsson, we create innovative solutions to improve traffic flow and drivers' dispositions on roadways nationwide. We design safe and efficient roadways, and we help communities realize long-term goals.

As more and more wind turbines and solar panels dot the landscape, one thing is abundantly clear: renewable energy is in demand now more than ever.

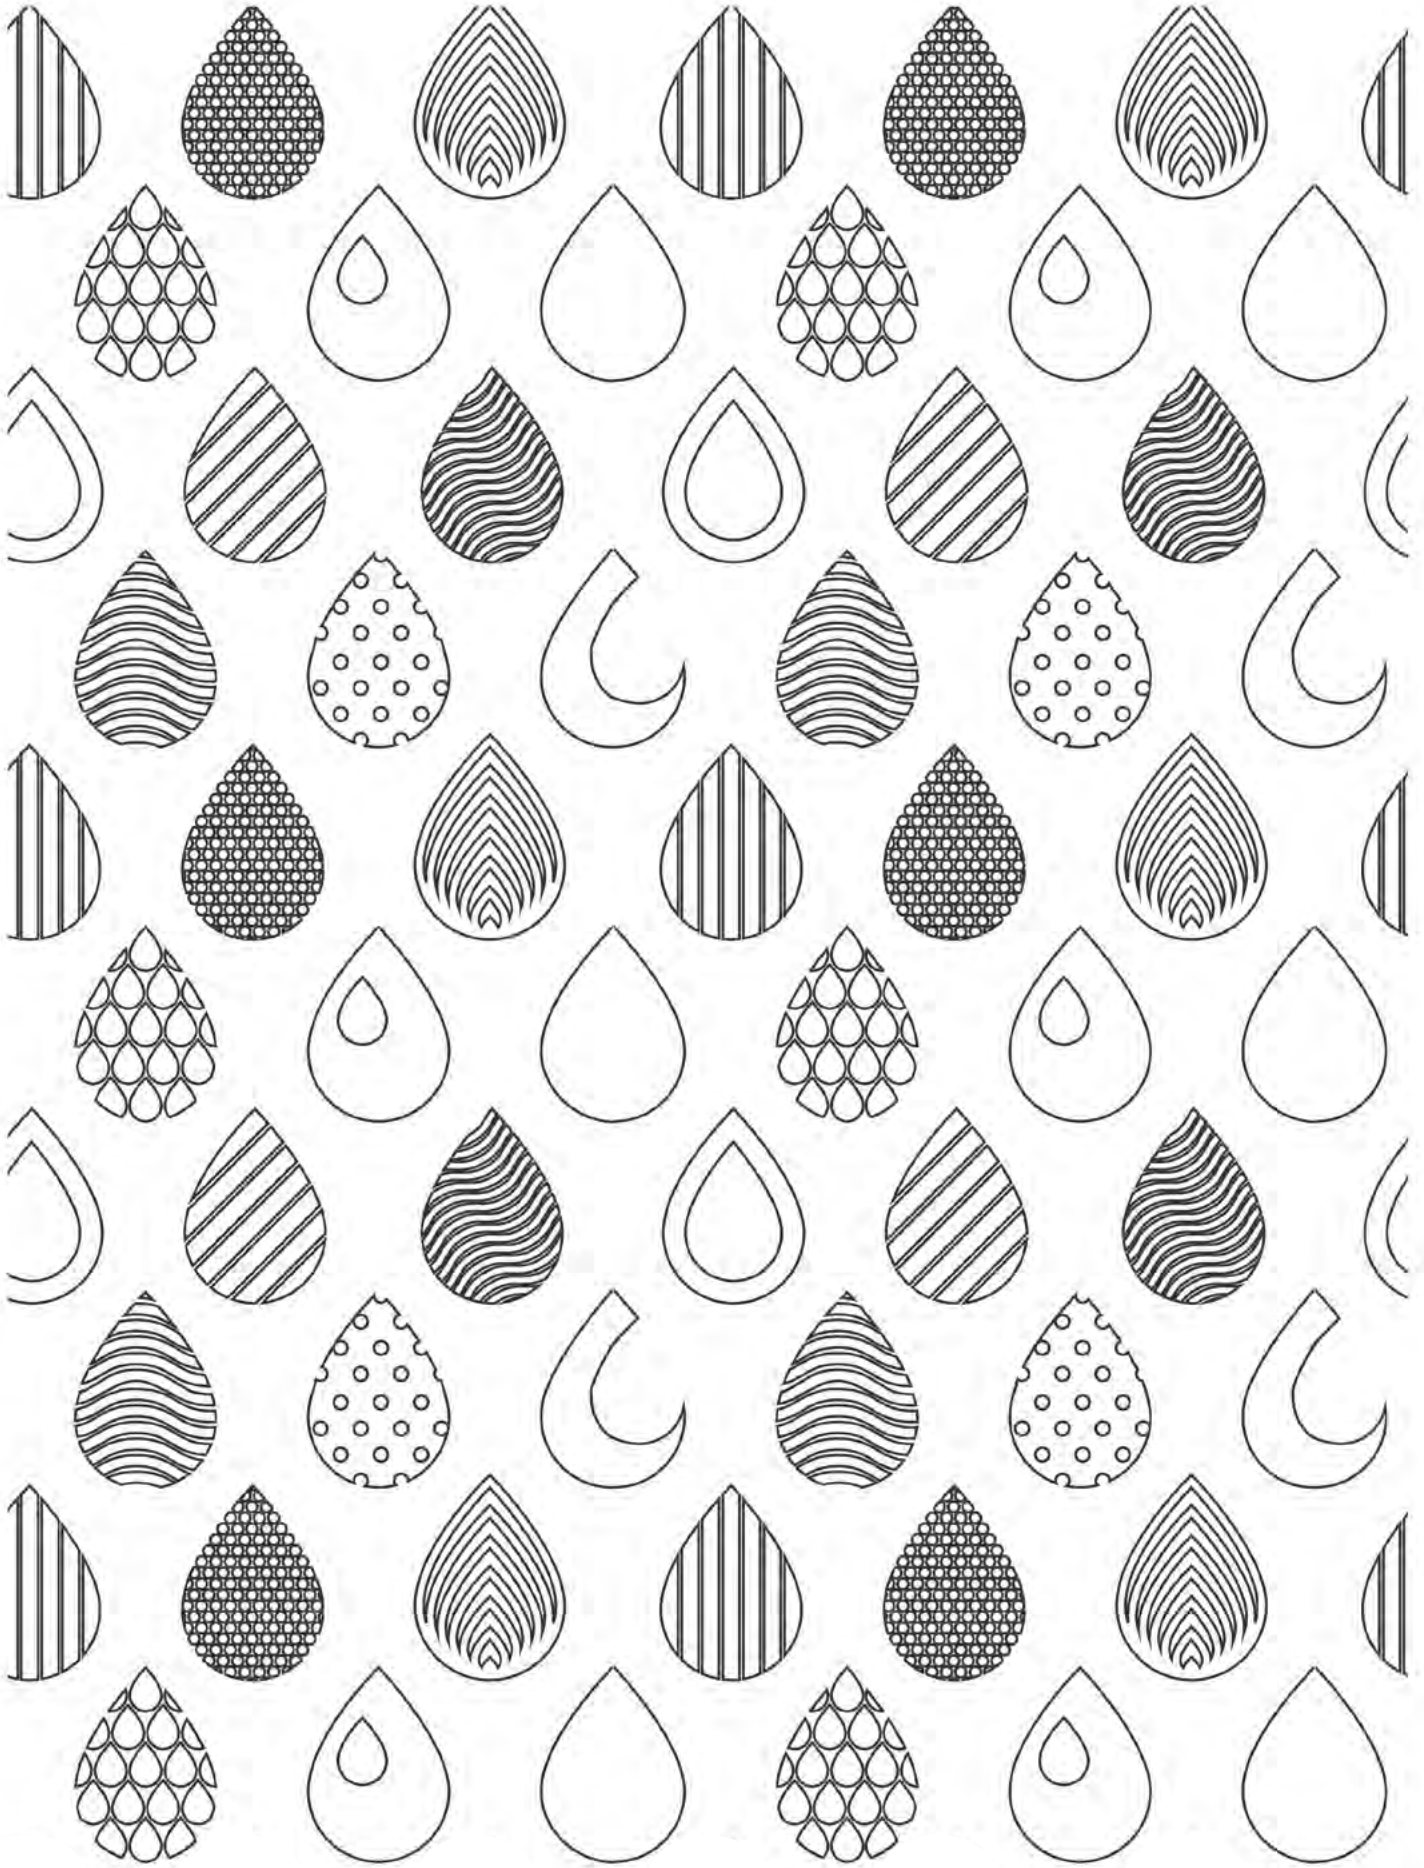

At Olsson, we have the renewable energy solutions to help energy providers meet these demands.

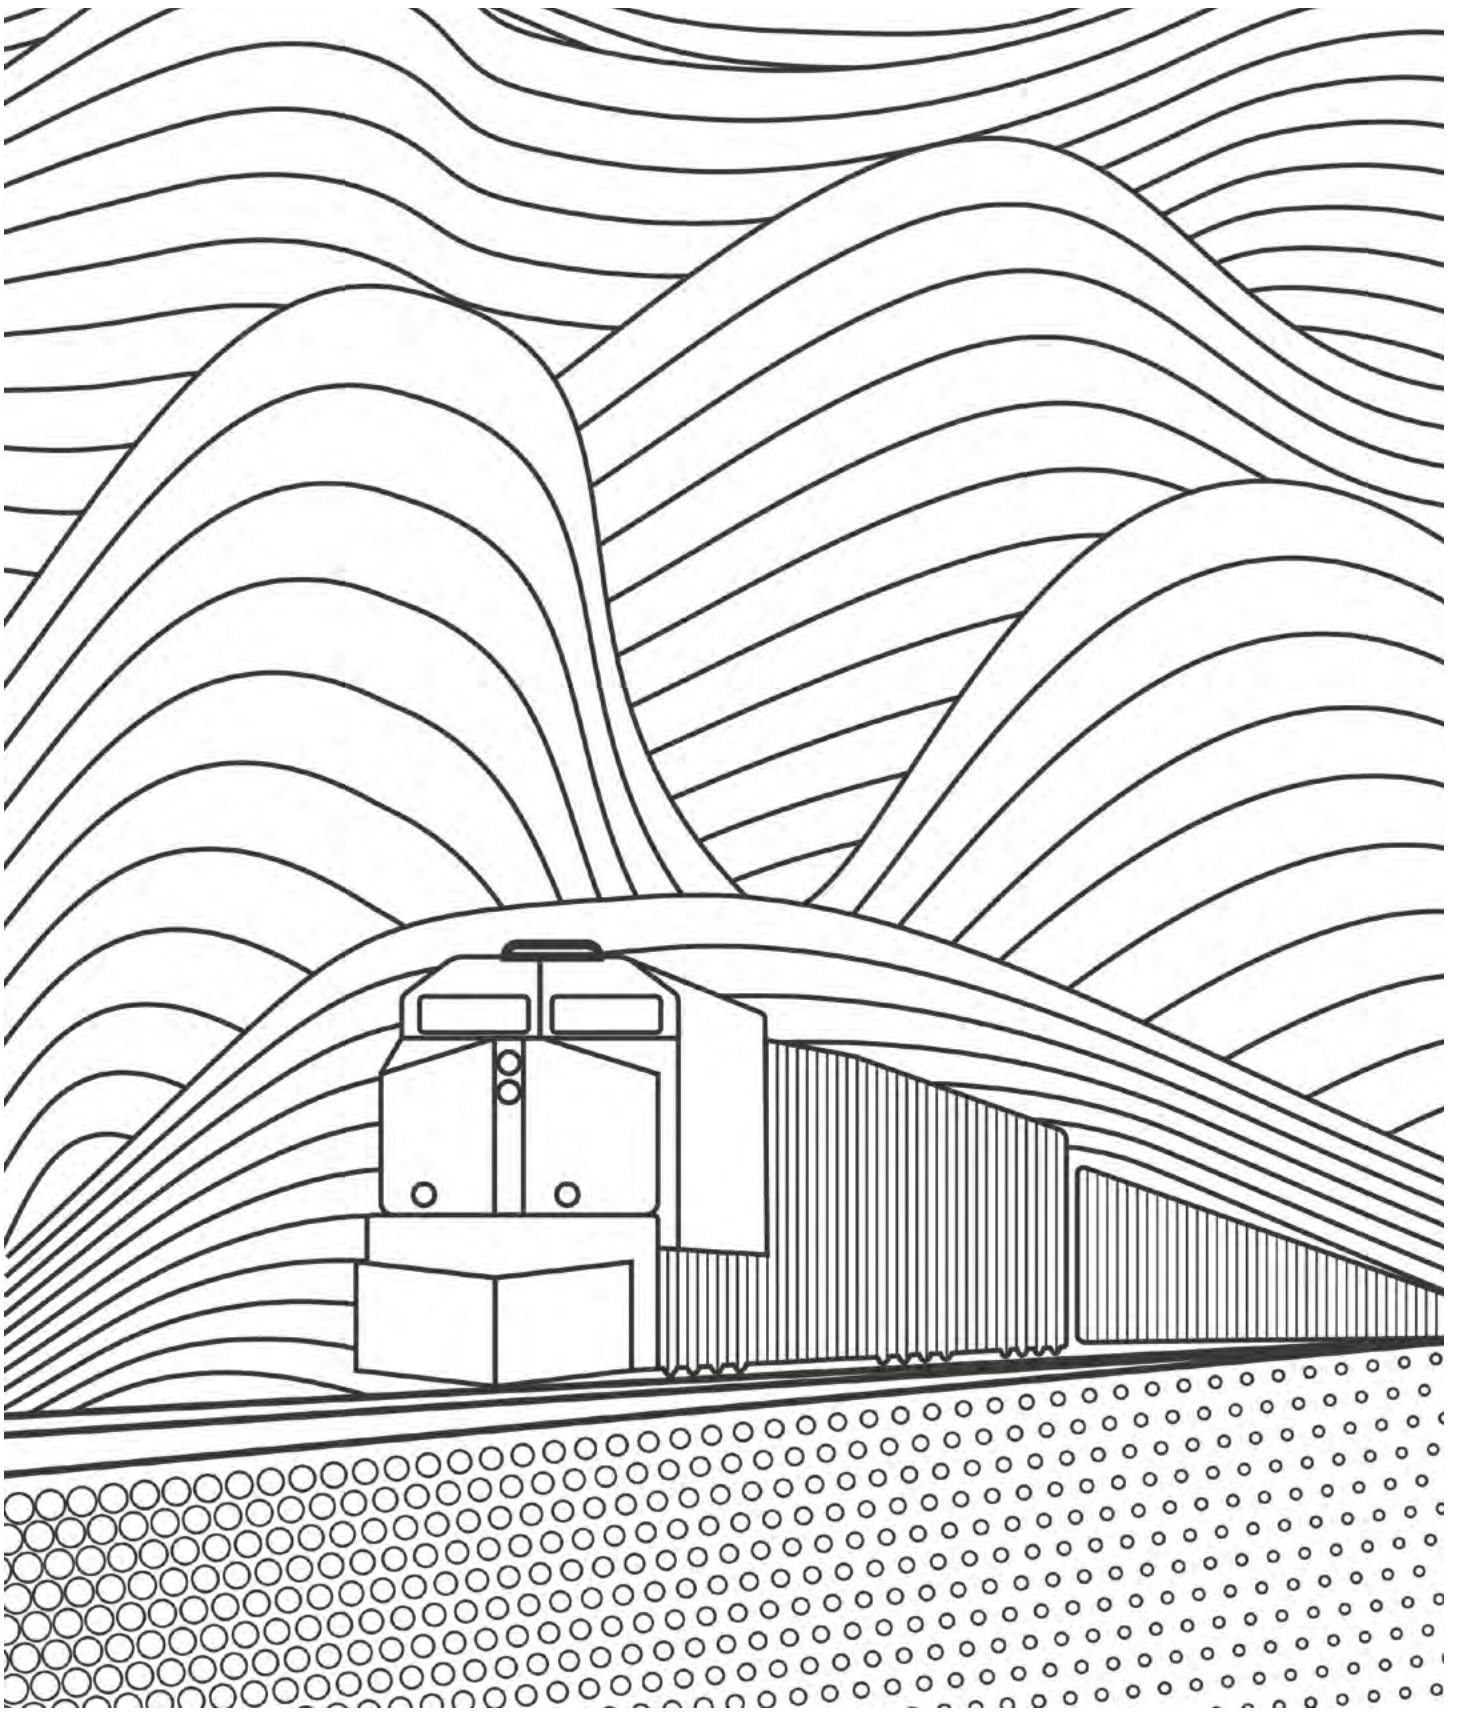

Our work will leave a long-lasting, positive impression on your community.

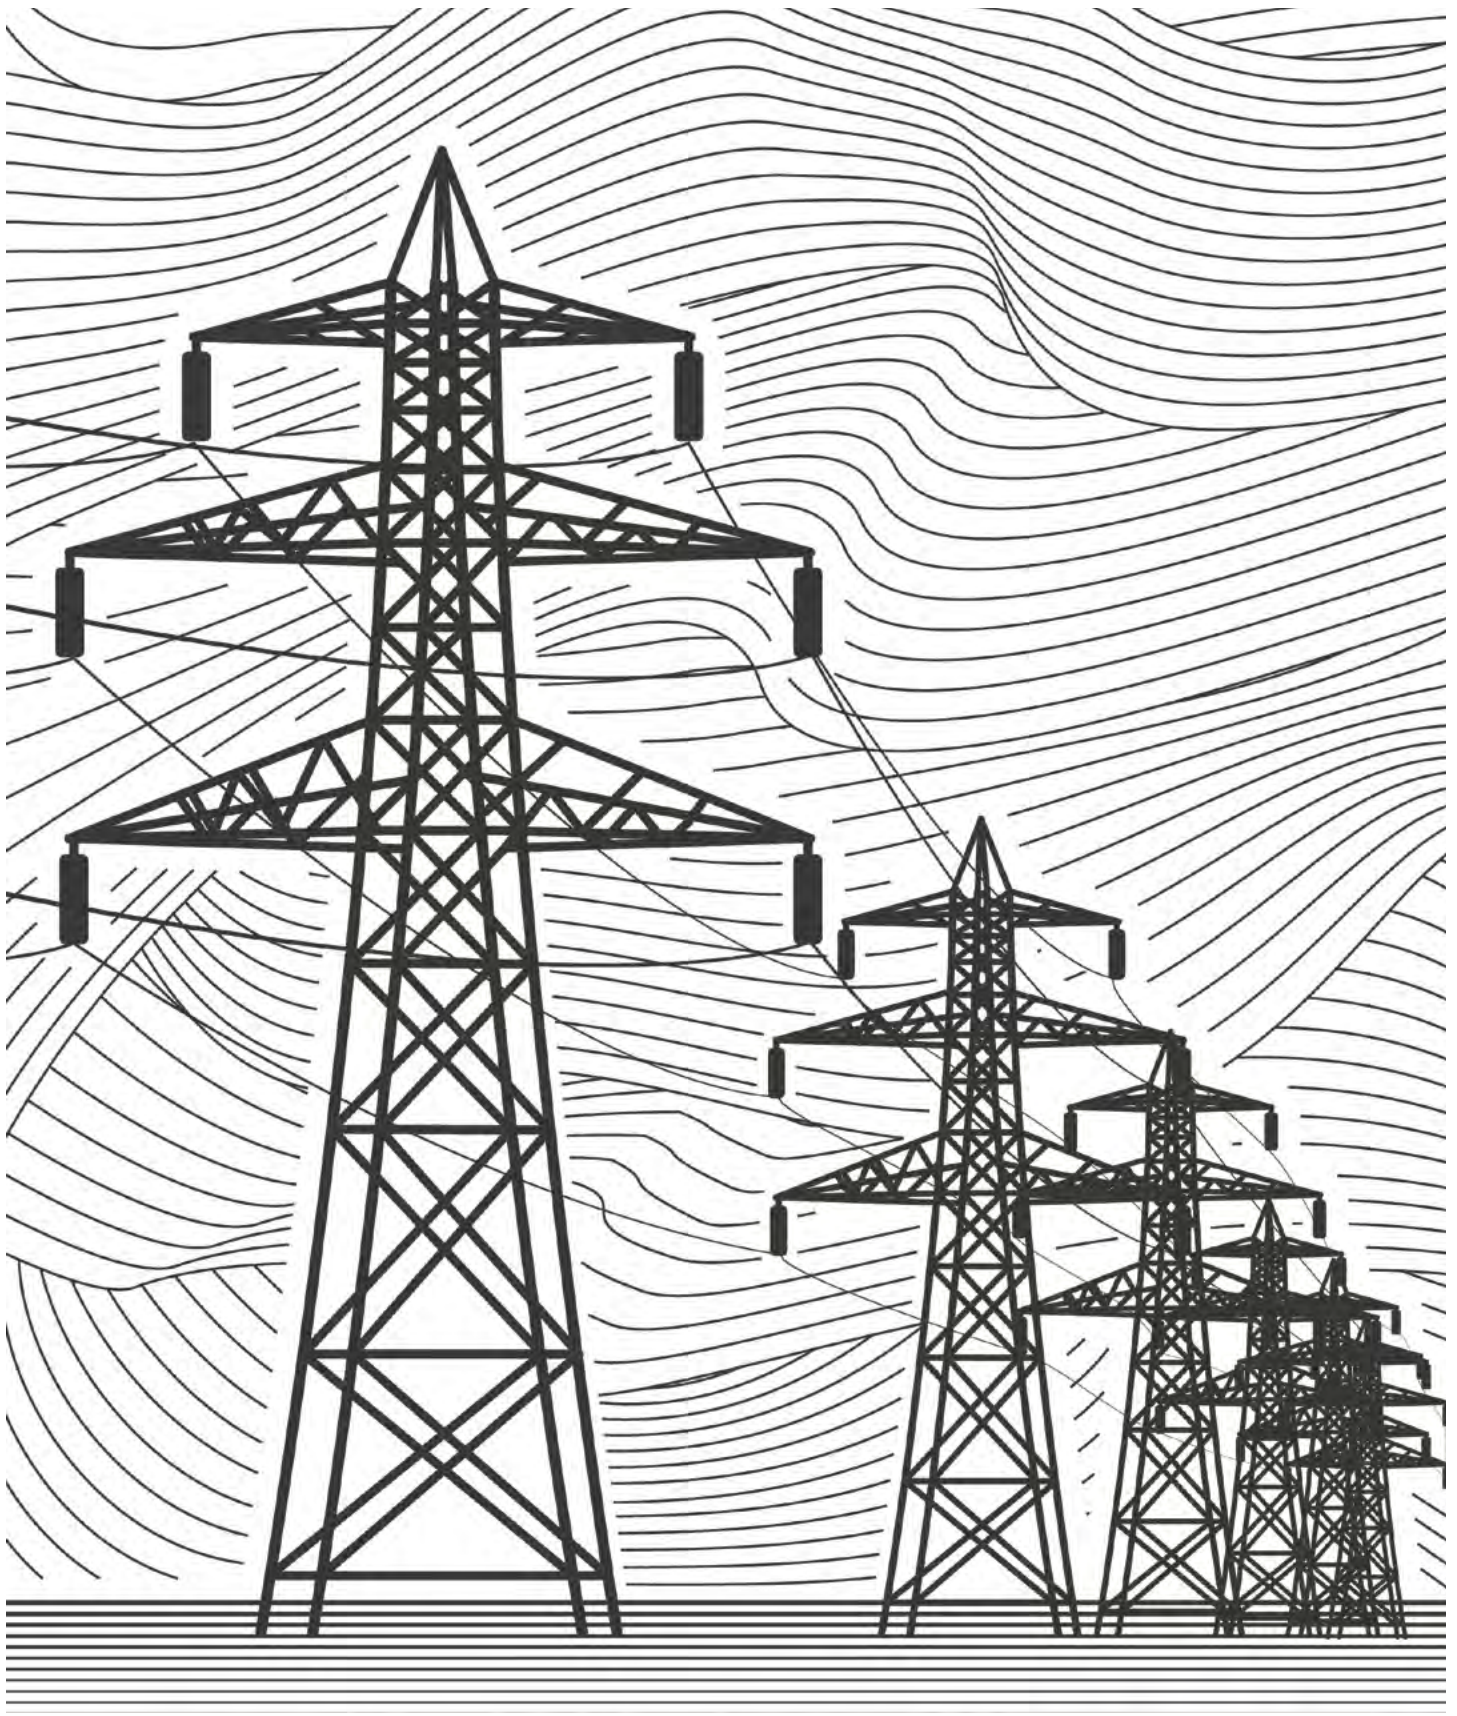

Olsson provides multidisciplinary design services for mixed-use, commercial, and residential land development. We also provide development services for industrial, sports and recreation, educational, data center, and healthcare projects.

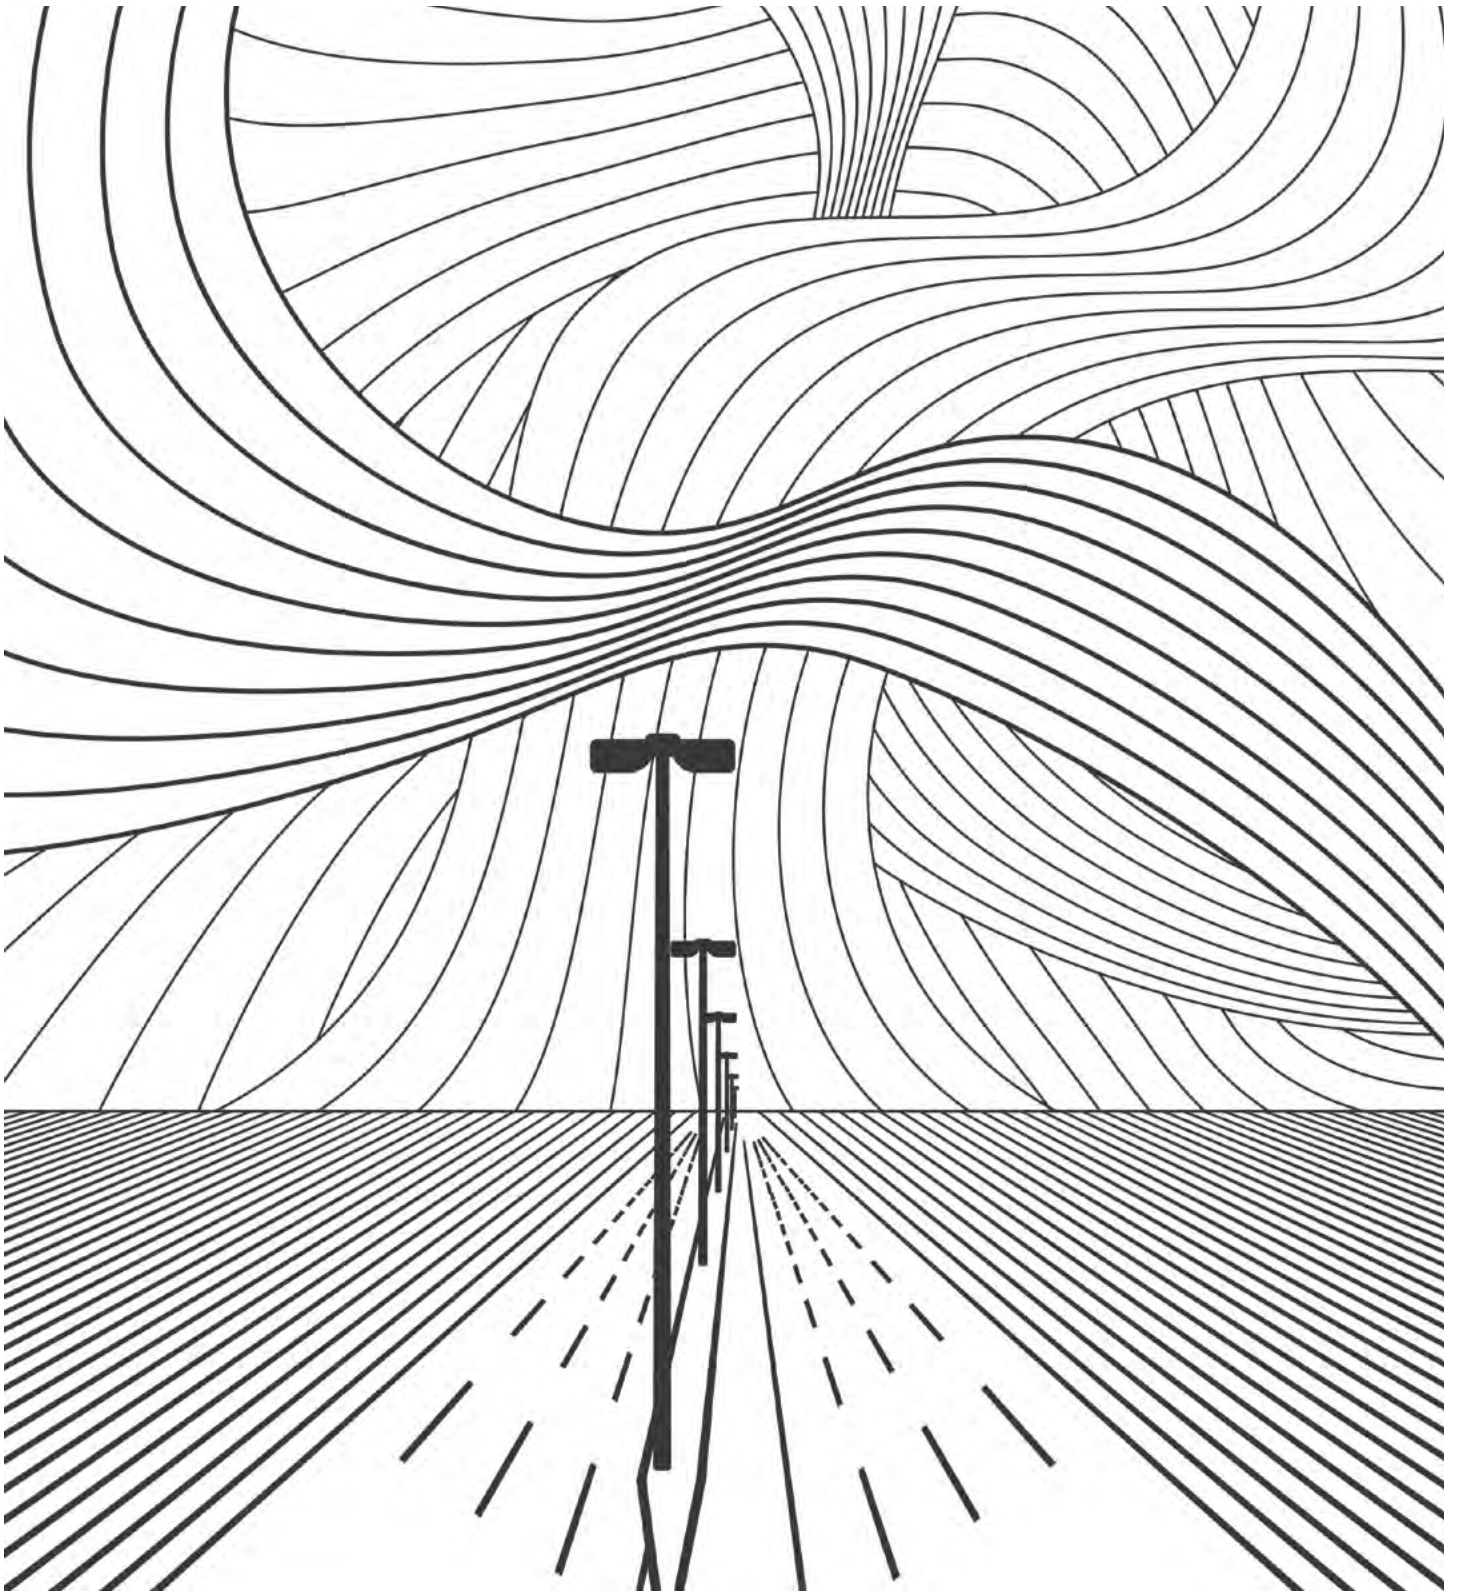

**We provide design and consulting services
to safely maintain and expand rail networks across America.**

At Olsson, we specialize in utility and industrial electrical systems—and we don't use the term specialize lightly.

We know your journey involves more than going from Point A to Point B.

Our experience-rich portfolio runs the gamut from rural highways to scenic byways, urban roadways to roundabouts, and interstate systems to interchanges to intersections. And let's not forget bicycle and pedestrian trails. We are proud of the work we do.

WE ARE OLSSON,

a nationally recognized, employee-owned engineering and design firm with a rich history of success.

Founded in 1956 on the very mindset that drives us today, we're here to improve communities by making them more sustainable, better connected, and more efficient. Simply put, we work to leave the world better than we found it.

Our people are our greatest asset, and we are dedicated to providing an

environment where they can continue to learn, grow, and thrive. They bring their passion, talent, and personality to work every day, and we vow to challenge, inspire, and champion them. Always. This entrepreneurial spirit is what has allowed us—and will continue to allow us—to grow. The result? Inspired people, amazing designs, and projects with purpose.
